Israeli Accepts Order To Halt Latest Fighting

But Military Operations Continue In Negov Desert Area In Palestine

EXPECT FIGHTING TO BE HALTED SOON

By BENN FELLER
(U. N. S. Staff Correspondent)

TEL AVIV, Oct. 20.—Israeli formally accepted the United Nations cease-fire order in Palestine today but military operations proceeded in the Negev desert area in the south.

The Israeli foreign office notified U. N. headquarters in Tel Aviv of the acceptance. The date and hour will be decided at a special cabinet meeting this afternoon.

Encirclement of Egyptian strongholds in the south continued. A spokesman said that the Israeli advance "is not abating."

A communiqué said that Israeli night bombers made several "heavy and successful" sorties against Beerseba, Gaza, El Arish, Majdal, and Beit Jibrin, all close to the border separating Israel from the Negev itself.

Fighting Under Way
Ground forces consolidated their positions on several heights between Majdal and Faluja. Intense fighting also was reported under way south of Jerusalem.

The Israeli government awaited official word from Cairo on the cease-fire. U. N. observers in Haifa reported word of strong aerial bombardments by both Jews and Arabs in the Negev.

Three Israeli corvettes were reported to have shelled Majdal from the sea yesterday, destroying a hospital.

(An Egyptian delegate to the U. N. announced in Paris yesterday that his government was prepared to comply with U. N. demands that although the Egyptians are willing to abide by the order they will continue to fight as long as Israeli forces press their attack.)

Israeli soldiers moved rapidly to consolidate their positions in the Negev area and block off communications between Egyptian bases.

To Make Address At Session Of Legion Convention In Miami Today

By JOHN R. HENRY
(U. N. S. Staff Correspondent)

MIAMI, Fla., Oct. 20.—American Legionnaires nursed sore feet and aching muscles from their rain-drenched parade today as their 30th annual convention moved into an eight-hour session of speeches and committee reports.

To Assist Communism
The American committee, one of the key groups in Legion affairs, was expected to assail Communist activity in the United States.

Among the recommendations expected to come out of the convention after the committee reports are a flat-footed stand against Communist infiltration and a resolution favoring legislation to destroy the Communist political party.

A projected resolution on states' rights, tentatively drafted by the Mississippi Legionnaires, was expected to be tabled.

The Mississippi delegation indicated, however, that a possible (Continued on Page Two)

Three Children Die In Home Fire Near Kansas City

KANSAS CITY, Oct. 20.—(INS)—Three small children burned to death today when fire destroyed their home on the outskirts of Kansas City.

The victims were Francis, 7, Karen, 6, and Larry Smith, 4. Eleven others escaped from the blazing nine-room frame house.

The victims' one-year-old brother, Ralph, was saved by their mother, Mrs. Dorothy Smith, 26, who dropped him eight feet to the ground after crawling through a window to a porch roof.

The child was uninjured by the drop. Firemen said the three dead children were asleep when the fire broke out and were trapped by the flames which quickly enveloped their room.

Most of the royal family was on hand but the crowd devoted its attention to the pretty princess, breaking through cordons repeatedly for a closer glimpse of her.

Communist-Led Revolt Develops In South Korea

(BULLETIN)

WASHINGTON, Oct. 20.—(INS)—Army officials said today that the use of American occupation troops to curb the revolt in southern Korea "is entirely up to General MacArthur."

By FRANK EMERY
(U. N. S. Staff Correspondent)

SEOUL, Oct. 20.—A large-scale Communist-led revolt against the government broke out in American occupied South Korea today, and rebel forces were reported to have captured two cities in bloody fighting.

Martial law was proclaimed tonight throughout the South Korean Republic as reinforcements of U. S. troops were rushed south from Seoul to help crush the insurrection.

The insurgent forces were understood to be in full possession of the cities of Yosu and Sonchon (CQ) where a heavy death toll was believed to include more than 100 police killed in daylight battles.

Increased Force
Armed rebels, including mutinous units of the national constabulary, increased their forces to nearly 4,000 at Sonchon alone and were moving north in the direction of Seoul, the Republic's capital.

The Red insurgents were driving north from Sonchon toward Kwangju, south of the capital of Cholla province.

Another rebel column was reported pushing east toward the key South Korean seaport of Pusan from which government forces were rushed west to meet the insurgents.

United States army occupation officials and American advisers to the South Korean government were keeping in touch with the situation. There was as yet however no indication that American occupation troops had been ordered into action to help quell the uprising.

Report Russian Hint At Change On Berlin Issue

By JOSEPH L. RANFT
(U. N. S. Staff Correspondent)

PARIS, Oct. 20.—Russia was reported today to have hinted at the possibility of a new approach for settlement of the Berlin crisis.

The hint was said by reliable sources to have been dropped by Soviet deputy foreign minister Andrei Vishinsky in an hour-long private talk last night with Juan A. Bramuglia of Argentina.

No Olive Branch Offer
The Argentine foreign minister, who is acting security council chairman during discussion of the Berlin blockade, secretly convoked representatives of China and four other non-permanent council members to discuss matters about which Vishinsky talked.

Although Vishinsky was said to have hinted at a possible new approach to the Berlin question, he failed to offer an outright olive branch to the western powers such as lifting the blockade.

The "neutral" council members are understood to have displayed pronounced reserve concerning the latest Vishinsky feeler.

Pre-dominating is the attitude that the western big three—America, Britain and France—no longer are willing to have the security council stall off a decision on indicting Russia for threatening the peace beyond next week.

First Draft Group Off To Pittsburgh For Examinations

Twenty-Six From Lawrence County Sent For Peace Time Draft Tests

NEW CASTLE GROUP TO GO ON THURSDAY

Twenty-six men from the jurisdiction of County Draft Board No. 86, went to Pittsburgh today for their physical examination, prior to induction into the armed forces, in the first call under the peacetime Selective Service Act.

City Board No. 87 will send its quota of men for examination on Thursday, when 22 from the city of New Castle will go to Pittsburgh.

Induction Date Not Set
No date has been set for the induction of the men who will be found acceptable for service, but it will likely be sometime in November.

The number of men ordered in for examination was doubled recently because of the fact that it was found that not enough men were found eligible to fill assigned quotas in the earlier calls from other draft boards in the district.

Governor Dewey Will Speak In New York City

By WILLIAM THEIS
(U. N. S. Staff Correspondent)

ALBANY, N. Y., Oct. 20.—Gov. Thomas E. Dewey shifts his presidential campaign base today to New York City, where the latest party registration figures cheered Republican strategists.

The GOP presidential candidate ended a day rest from campaigning to deliver two New York City speeches, one tonight before the New York Herald-Tribune forum, the other Thursday night at the Al Smith memorial dinner.

Dewey left Albany about noon. His plans for the rest of the week beyond Thursday are indefinite but the odds seemed to favor his returning for a quiet Saturday and Sunday at his Pawling farm or in Albany.

The governor takes off again Monday for the final week of the presidential campaign.

Dewey's aides found encouragement in the official registration figures for New York state. While normally Republican upstate New York reflected an increase of 73,443 in registrations, New York City was off 242,857 from 1944, the last presidential year.

Two Soviet Officers Steal Russian Plane And Flee To U.S. Zone

VIENNA, Oct. 20.—(INS)—United States officials announced today that two Soviet officers who fled "Stalin's persecution" by stealing a bombing plane and flying to the American zone of Austria, will be granted permanent asylum.

The officers, a captain and a lieutenant, were revealed to have made a daring flight from the Ukraine to a U. S. airfield near Linz, Austria, on October 9.

Their plane, a Soviet J-2 bomber, was said to contain "several devices interesting to American engineers."

Plane Is Returned
The plane has now been returned to Soviet authorities.

The announcement by headquarters of U. S. forces in Austria did not say whether the officers would be sent to the U. S. or kept in the American zone of Austria.

The officers were quoted as saying they "had enough of Stalin." They were accompanied on their flight by a Red Army sergeant who thought he was on a routine training mission. Given his choice, the sergeant elected to return to Russia.

The two officers said that they had planned their escape for a year before they made their daring try. They told how they boarded the plane Saturday morning, October 9, under the guise of making a routine training flight.

Soviet Proposal Loses By 39-6 In U. N. Committee

Canada's Resolution For Continued Study Of Atomic Control Is Accepted

SEE ACTION AS DOOMING CONTROL

By PIERRE J. HUSS
(U. N. S. Staff Correspondent)

PARIS, Oct. 20.—Soviet proposals for atomic energy control were rejected today by the United Nations. Canada's resolution calling for continued study in search of a control formula was accepted.

The 58-nation political committee turned down a Soviet resolution 39 to 6 which provides for simultaneous destruction of atomic stockpiles and establishment of controls. There were seven abstentions.

The Canadian resolution was adopted 41 to 6 with 10 abstentions.

Provides For Consultation
This measure provides for consultation among the Big Five powers and Canada to revive the suspended U. N. atomic energy commission.

In effect it puts the commission back to work on technical problems but leaves the problem of seeking a way to end the deadlock on atomic controls up to the Big Five and Canada.

The Canadian resolution also calls on the General Assembly to approve the majority reports previously submitted by the atomic energy commission when it suspended its activity.

The deadlock resulted from Russian rejection of the majority view insisting on periodic inspection of atomic production plants.

The Russians asserted this was an infringement of sovereignty.

Decision Significant
Generally it is agreed that the political committee decision on the (Continued on Page Two)

Bodies Of Four Seamen Found After Collision

Three Other Seamen Still Missing In Ship Sinkings Near Baltimore

BALTIMORE, Md., Oct. 20.—

(INS)—Four bodies were recovered from the Chesapeake Bay today where the tug Columbia and a barge were sunk after colliding with the Swedish steamship Bowgram last night.

The bodies were picked up by the Coast Guard which continued a search for three other seamen still missing in the accident which occurred about ten miles south of Baltimore.

Three persons, barge skipper Thomas E. Russell, his wife, Lorraine and three-month-old son, Clifford were rescued by the Bowgram shortly before the barge sank. The tug drifted away from the accident and later was found sinking with only the mast and part of the pilot housing showing. Bodies of four of the seven men aboard were found this morning and a search continued for the three others.

The Columbia was owned by the Eastern Transportation Co., of Baltimore.

Federation In Fall Session

Lawrence County Federation Of Women's Clubs Meets On Tuesday

MRS. L. P. SHELLEY
CHIEF SPEAKER

Fall meeting of the Lawrence County Federation of Women's Clubs, in the First Presbyterian church Tuesday afternoon was marked by an attendance of close to 100 members of women's clubs of the county affiliated with the federation.

Mrs. George E. Parfitt, of Tarentum, vice president of the southwestern district, and Mrs. Leonard P. Shelley, of Grove City, chairman of the drama division of the Pennsylvania Federation, were guests of honor.

Luncheon was served at one o'clock in the church dining room at tables decorated with large yellow dahlias. Mrs. Wilbur F. Miller, president of the county federation, presided and Mrs. Roy A. Long gave the invocation.

At two o'clock the group adjourned to the Sunday school room for the program on which Mrs. Parfitt and Mrs. Shelley were speakers.

Mrs. Parfitt brought greetings from the state board and spoke briefly on the national and state programs, mentioning particularly the Mt. Alto hospital, the home economics course and the conservation club at Penn State College, and a contribution of \$5000 to the Girl Scouts. As her closing note she urged members to vote on November 2.

Principal speaker was Mrs. Shelley, whose topic was "The Field of Drama." She made suggestions regarding Christmas programs, tableaux, etc. She recommended several current stage shows now on Broadway and on road tour and urged members to encourage story telling groups for children and opportunities for dramatizing.

Story telling is an art as old as singing and dancing, she said. For juniors, they may get much enjoyment from staging puppet or marionette shows, she suggested.

As soloist Mrs. W. J. Harper McKnight introduced Miss Alice Ann Epply, of Chester, W. Va. and her accompanist, Miss Audrey Blair, of Unity, Pa. Both music students at Westminster College.

Miss Epply sang two selections that received warm applause. They were "Starlit Woods" and the Italian Street song.

Opening the program, the singing of America was led by Mrs. Benjamin Agnew and the pledge of allegiance to the flag was led by Mrs. Joseph Martin, president of the Women's club.

Mrs. S. D. Pearson, a past president of the Lawrence County Federation, led the reading of the Collet.

During business, the budget for the year as given by Mrs. Roy A. Long, was adopted.

Member clubs were urged to help finance the school mill program being inaugurated in all the city schools and the hot lunch program at Ben Franklin Junior high school.

Mrs. William Cossel made the announcement.

At the present time the Grace Greer Scholarship Fund amounts to slightly more than \$1400.00, it was announced.

Special recognition was accorded the Sorority club, which will celebrate its fiftieth anniversary in the spring. Sorority club and December Women's club were honored clubs.

American personnel at the field first thought the Russians had lost their way. But the Soviet officers explained they were fleeing "Stalin's oppression" and begged American sanctuary.

They said that they had offered to let the sergeant who was with them parachute over Russian territory, but that he had decided to stay for the journey.

American correspondents were notified that they may interview the officers Thursday.

TRUMAN PLANS CAMPAIGN IN PENNSYLVANIA

(Continued from Page One)

November election, have decided to conduct another marathon campaign in this key state.

The chief executive particularly is aiming for the vote of the hard coal miners, affiliated with John L. Lewis' United Mine Workers Union.

Instead of confining his return visit to Pennsylvania to Pittsburgh, the president will therefore make speeches Saturday in at least three other cities — Scranton, Wilkes Barre and Johnstown.

The president will leave the capital early Saturday morning, flying probably first to Scranton, and then motor to Wilkes Barre, flying afterward to Johnstown and Pittsburgh.

Assistant Chief Aids Injured Woman

Shuts Off Flow Of Blood And Rushes Woman From Fire Scene To Hospital

Assistant Fire Chief William Bowen performed a commendable bit of first aid work on answering an alarm from box 12, which summoned firemen to the home of Mrs. Virginia Brown, 323 West Falls street, where fire caused by an open grate resulted in damage of around \$50 early Tuesday evening.

Mrs. Brown became excited on discovering the fire and tried to put her baby out a window. The window was closed and Mrs. Brown stuck her hand through the pane of glass, severing an artery in her wrist. Blood was gushing from the injury when firemen arrived, and Assistant Chief Bowen applied pressure to her arm, shutting off the flow of blood. He showed Police Officer John James where to hold the pressure and took the woman to the Jameson Memorial hospital, where her injury was treated.

Spur Drive To Aid Nationalist Forces In China

By JOHN A. REICHMANN
U. S. Staff Correspondent

WASHINGTON, Oct. 20.—Administration officials intensified their drive today to get military supplies to the Chinese nationalist forces as word was received of the fall of Changchun.

Actually the loss of the long beleaguered Manchurian city long had been anticipated. But the actual report served to emphasize the weak position of the armies of Generalissimo Chiang Kai-Shek.

Moreover, earlier reports had indicated that a large part, if not all, of the nationalist forces in the city would be able to evacuate, even though they had to move through communist-held territory.

No Serious Manpower Loss
The loss of two nationalist armies may be significant but need not necessarily represent a serious loss in manpower. It has been one of the criticisms lodged by western military men that the nationalists have maintained armies that were little more than skeletons largely to maintain the prestige of generals.

In some cases the ranks reportedly have been filled with raw recruits taken from the surrounding areas who hesitate but little before surrendering.

Observers believe that what possibly may be of more military importance is the amount of arms and ammunition the communists may have gotten in Changchun, assuming that the fall is complete.

It was believed possible that Changchun was abandoned as a costly operation serving little purpose. There had been reports some months ago that some military advisers to Chiang felt that the north should be written off and a more tenable stand made farther back.

Neshannock Fire Department Hosts

Entertain Members Of Auxiliary And Families At Entertainment Last Night

Neshannock Township Fire Department was host to members of the Ladies Auxiliary and their families at an entertainment and oyster stew in the fire station on the Mercer road Tuesday evening, following the monthly business meeting of the department.

Other guests included Jack Houston and W. J. Caldwell, honorary members of the department. Following the business session, Ed. Miller took over as master of ceremonies, and with his committee presented a fine musical program, followed by an oyster stew. Assisting on the committee were: Merle Brooks, Clyde Altman and Mike Shullif.

It is planned to have an oyster stew for the public on the night of Friday, November 5.

WOMAN IS TAKEN ILL ON DOWNTOWN STREET

Mrs. Roberta Latimer, of R. D. 2, Coates avenue, suffered a fainting spell at the corner of South Mill and Water streets, Tuesday afternoon at 5:30 o'clock, and was taken to the Jameson Memorial hospital in an unconscious condition by Assistant Fire Chief Bowen.

She was examined at the hospital and was able to go to her home after emergency treatment.

FAST SANITARY SERVICE

Ten Days or Ten Years After the Funeral...

One of the reasons why American funeral service is so far ahead of any other in the world is our method of embalming. A body that is properly embalmed will be the same ten days or ten years afterward. In that respect, even the lowliest American family receives better funeral service than royalty can command in most parts of the world.

The embalming staff of the Boyd Home for Funerals has aided many New Castle families to have cherished memories.

QUASSIA

In the middle of the 18th Century, Quassia, an African Negro, acquired a reputation for treatment of Malignant Fever by a secret remedy, Rolander, a Swede, took some of the bitter extract from a tree to Sweden where it became very popular. He called it Quassia, after the Negro Quassia. The drug's principal value is in combating the failure of appetite due to Gastric Debility.

LEGION AUXILIARY OFFICERS INSTALLED

Installation of officers by Mrs. Dan T. Brown, of Beaver Falls, western director of the American Legion auxiliary, highlighted the first fall meeting of the legion auxiliary to Perry S. Gaston Post No. 343 in the legion home Monday evening.

Preceding the meeting a fifteen dinner was served at a local tea room where the auxiliary with state and council officers as guests gathered at tables decorated with fall flowers.

Installed as president was Mrs. Ethel Murphy, succeeding Mrs. Thomas J. Boyle. Other officers installed were: first vice president, Mrs. Edna Headlund; second vice president, Mrs. Clara Speed; secretary, Mrs. Ruth Conner; treasurer, Mrs. Rita Smith; sergeant-at-arms, Mrs. Gertrude Speed; chaplain, Miss Lillian Hartman.

Mrs. Brown in a short talk then quoted figures on the Department of Pennsylvania's contributions during the past year, including two outstanding projects. The department made a contribution of \$3,150.00 to junior baseball and \$4,500.00 to the commonwealth for the planting of dogwood trees as memorials along the highways.

Mrs. Elizabeth Miller, poppy chairman, reminded all present that the 10,000 poppies for poppy day have arrived. It is the "little red poppy" that makes possible the welfare work carried on by the auxiliary she reminded members.

Guests for the evening included Mrs. Kathryn McTusack, of Farrell, Mrs. Betty Horner, of Beaver Falls, and Mrs. Betty Malcomson, of Sharon.

Music with Mrs. H. Hammond at the piano brought the meeting to a close.

ANNE KOLESAR ENGAGED, TOLD

Mr. and Mrs. Stephen J. Kolesar, of 524 East Moody avenue, announce the engagement and forthcoming marriage of their daughter, Anne Kolesar, and William Howard Onash, son of Mr. and Mrs. Rudolph C. Onash, of 202 Hillcrest avenue.

The open church wedding will take place in St. Mary's church on Thanksgiving Day, November 25, at 3:30 o'clock in the afternoon.

MARGARET MOORE FETED AT SHOWER

Mrs. James Cummings and Miss Ann Glenn entertained a group of friends Tuesday evening in the former's home, 435 East Winter avenue, at a shower in honor of Miss Margaret Moore, bride-elect of this month.

The evening was spent playing bridge, with prizes going to Miss Betty Jensch and Miss Mary Butz. Delicious refreshments were served by the hostesses at a prettily appointed candlelit table. The table was appointed in the fall motif and centered with a large white cake with the green lettering, "Marg and Duck". On the top of the china closet the wedding party was arranged with tiny miniature figures.

The honoree was then showered with an array of lovely and useful gifts.

Miss Moore, daughter of Mr. and Mrs. John G. Moore of 304 East Winter avenue, will become the bride of John Reed McFarland, son of Mr. and Mrs. Reed D. McFarland of New Wilmington Friday evening, Oct. 22, at 7:30 in the Wallace Memorial chapel at Westminster college. Open church will be observed.

McILVAINE GUILD FALL SEASON OPENS

McIlvaine Guild of the First Presbyterian church had its opening meeting of the fall season in the home of Miss Janet Brennehan, 418 East Garfield avenue, Tuesday evening, with Mrs. Homer Allen, Mrs. James Beam, Mrs. William Boston, and Miss Margaret Brown as co-hostesses.

Opening devotionals were in charge of Mrs. Edwin O. Feas. Speaker of the evening, J. C. Wachtman, executive vice president of the Greater New Castle Association, gave a splendid talk on "Good Citizenship". Our citizenship is our birthright and a precious heritage and we should do all in our power to safeguard it, he stressed. So many things we take for granted as citizens, he said, citing the Bill of Rights embodied in the first ten amendments to the Constitution. Mr. Wachtman was introduced by Mrs. John J. Alexander.

During business with Mrs. Samuel W. Perry Jr. presiding, it was voted to make the guild's annual White Cross gift for overseas missions. Name as a committee for the church nursery were Mrs. Grover Washbaugh, Mrs. Oscar Riley, and Mrs. Robert M. White II. A report for the nominating committee was given by Mrs. Edward Rea.

At the close of the meeting refreshments were served from a table centered with bronze 'mums' and lighted by dark green candles in crystal holders. Mrs. Samuel W. Perry Jr. poured.

Next meeting will be November 16.

PLANS REVEALED FOR HOME WEDDING

Mr. and Mrs. E. F. Bertrand of Carbon, Pa., announce the forthcoming marriage of their daughter, Annabelle Mase Bertrand, and Jack Barton of Youngstown, O.

The ceremony will take place Saturday, October 23, at 6:30 p. m. in the bride's home. There will be an open house reception following the ceremony.

WARSO-KWOLEK AFTERNOON WEDDING

SS. Philip and James Church was the scene of a lovely fall wedding Sunday afternoon, October 17, at 2 o'clock when Miss Lillian E. Warso, daughter of Mr. and Mrs. Joseph Warso, of R. D. 3, became the bride of Joseph W. Kwolek, son of Mr. and Mrs. Walter F. Kwolek, of 530 Epworth street. Rev. V. V. Stancelowski officiated at the double ring ceremony.

Given by her father in marriage, the bride was lovely in a gown of white satin, fashioned with a marquisette neckline and yoke, with an off the shoulder effect trimmed with scalloped imported Belgian lace set with rhinestones. It had a peplum of the scalloped lace set with rhinestones and the full skirt fell into a full majestic train. Her fingertip veil of French illusion fell from a crown of seed pearls and was trimmed with rhinestones. She carried a prayer book which was adorned with two lavender orchids.

As maid of honor, Miss Eleanor Warso, sister of the bride, was attired in a gold satin gown and carried a cascade bouquet of mixed fall flowers and wore a headress of the same flowers.

Miss Eleanor Glasser, cousin of the groom, as bridesmaid, wore an aqua gown similar to the maid of honor's, with her headress and bouquet identical.

Peter Kwolek, brother of the groom, served as best man and John Ostrowski, uncle of the groom, was the usher.

Miss Marie Dulikiewicz, organist, played appropriate nuptial selections preceding and during the ceremony.

Immediately following the ceremony there was a dinner served to 65 guests at the home of the bride and later in the evening there was a reception at the K. F. Hall for approximately 350 guests.

The newly weds then left on a wedding trip to California and upon their return will reside for the present at the home of the bride's parents.

Mrs. Kwolek is a graduate of New Castle high school and was formerly employed in the advertising department of the Johnson Bros.

Mr. Kwolek is a graduate of New Castle high school and of the Progressive School of Photography, New Haven, Conn. He served with the U. S. Navy as a Motor Machinist 3/C, for two years, serving one year in the Pacific theatre of war. He is now in partnership with his father at Kwolek Studios.

SILVER WEDDING FOR LOCAL COUPLE

Mr. and Mrs. Norman Cuscino, of 1015 Huey street, were honored on their 25th wedding anniversary, on Sunday at their home, the host for the occasion being their son, Thomas Cuscino.

Members of the immediate families were invited to the full course dinner served at the residence at noon. Places were marked for fifty relatives, and beautiful red roses were used as the floral centerpiece. A three tiered wedding cake was also presented.

Preparing the meal were Mrs. Nick Ambrose, Mrs. Albert Amodei and Mrs. Italo Amodei, and the daughters of the honored couple capably served: Joan, Lucille and Irene Cuscino, and a niece, Diana Ambrose.

In the evening, open house reception was held from seven to nine o'clock, for friends and other relatives of the honorees.

Special guests attending were: Mrs. Cuscino's parents, Mr. and Mrs. Guy Amodei; Mr. and Mrs. Phil Baptiste, of Elyria, O., and Mr. and Mrs. Frank Frenzel, of Weirton, West Virginia.

The honored couple were the recipients of many lovely and useful silver gifts received from their many friends and relatives, in remembrance of the day.

Mr. and Mrs. Cuscino were united in marriage on October 15, 1923 in the First Methodist church, in New Castle. Rev. Herbert A. Ellis officiated at the ceremony.

LOWERY GROUP HAS OCTOBER SESSION

Margaret Lowery Missionary society of the Central Presbyterian church was entertained Tuesday evening in the home of Mrs. Kenneth Kauffman, Wilmington road.

Mrs. Charles Coraman was devotional leader, while the hostess discussed the theme "The American Indian".

During the business session, conducted by Mrs. Claude Davidson, vice-president, plans were made for a penny supper at the church Tuesday evening, November 16. A box was packed for the national missionary sewing project.

The group was also given a list of articles for the overseas project. A tasty lunch was served by Mrs. Kauffman, aided by Mrs. Clare Jamison and Miss Emma Maxwell, co-hostesses.

Birthday Party

Mrs. Joseph Sobczak of 642 Cascade street entertained a group of children and party in her home Friday evening, October 15, in honor of the first birthday of her son, David Michael.

Games were played and every youngster received a small gift in remembrance of the occasion.

Mrs. Mary Pepper received the door prize.

With a flash camera, pictures were taken of the children's activities throughout the evening.

Mrs. Mary Pepper and Mrs. Joseph Wojtowicz aided the hostess in serving a lunch at a table centered with a large birthday cake.

Little David Michael received a number of lovely gifts.

Mrs. Stella Cini and Mrs. Paul Hergenrother and children of Wampum were out of town guests.

Semper Fidelis Club

Mrs. E. H. Scarazzo, of Laurel avenue, will receive the Semper Fidelis club, Thursday evening in her home.

SINCE 1875

THE WORLD AND THE MUD PUDDLES

(Continued from Page Four)

and those cities have a complete organization for tax purposes. After a long period of excessive high federal taxes, the people finally won a substantial measure of relief from Congress, acting under an executive veto. The reduction was generally applied and the assumption was that tax outlays

would be less burdensome on the individual citizen.

Since the advent of Franklin Delano Roosevelt, there have been many new taxes inaugurated—in Washington, in the various state capitals, in the great number of county seats and in the cities. Since the federal government passed the Social Security Act, practically every state followed suit for a Social Security law of its own. Following Mr. Townsend of California, the federal government passed an Old Age Pension law, which was

imitated by more or less similar laws in the several states.

The public schools must be supported by taxation and we have plenty of that. Every year adds to the number of children to be educated which means more teachers to be paid at higher salaries, particularly, to the superintendents of schools. Just now we have excise taxes, special taxes on articles alleged to be unnecessary luxuries—gold, silver, jewelry, cosmetics, leather goods, furs, perfumes; a whole list arbitrarily drawn by the legislators.

The struggle for reduction in the income taxes has absorbed the attention of the taxpayer to such an extent that he doesn't give much consideration to the state, county and city taxes, and while we are promised some relief on our income tax, we have a very definite prospect that local taxes will increase. All state, county and city taxes are affected and not favorably. The employees of the state and its sub-divisions are increasing in number. The population has increased. The demand for more and better highways has increased.

The necessity for more power, together with the necessity of the desire to curb floods have demanded the building of more dams and at greater expense, as well as pipe lines to convey the water where it is needed.

Just now efforts are being made to persuade Congress to go into taxation to support a scheme of free medical and hospital service for the indigent citizens. President Truman in his campaign for re-election has criticized the Eightieth Congress as being the worst in our history, particularly,

it has not provided for adequate housing for our citizens. Well, take it by and large, F. D. R.'s alleged purpose to tax and tax and tax, is being imitated all over the nation.

Real estate taxes right here in New Castle are on the upgrade and they are trying to determine whether they can possibly tax the pay of every man employed, either as a high executive or as a lowly apprentice in the city.

As for low-cost home building and low-cost rental units, high taxes discourage both the would-be

home builder and the would-be builder of rental properties.

It is a simple matter for taxing authorities and local government officials to devise budgets which call for substantial increases in tax levies. But it is far from a simple matter for the ordinary citizen to meet substantial additions to his tax bill. With all due allowance for the growing cost of government, every effort should be exhausted to avoid serious additions to the tax burdens of thousands who have extreme difficulty in meeting even the present levies.

Aptitude Tests At Franklin School

Eighth grade students at Franklin Junior High are being given aptitude tests this week by Elmer Delaney, public school psychologist.

Tests are given in manipulation, space relationships, arithmetic sense, and clerical speed and accuracy to determine what the student is best fitted for. This is the third year that the tests have been given and they have been found to be an important phase of student guidance work.

William Penn and the state which he founded will be honored in a special assembly program Thursday for Franklin students. Miss Devlin and Miss Scherger are directing the pupils who are participating in the program.

Plan Action To Meet New Crisis In French Strike

PARIS, Oct. 20.—(INS)—The French cabinet planned new emergency action today to halt the violence-ridden Communist-led strike wave.

The cabinet met as crack troops and mobile guards prepared to seize strike-bound mines in the St. Etienne region in central France in the face of stiff resistance.

Miners barricaded many of the pits and were ordered to hold their positions at all costs.

Meanwhile, violence flared in southern France at the towns of Albi and Carmaux, northeast of Toulouse. Several hundreds strikers at Albi halted a train carrying police and unhitched its locomotive. In Carmaux, strikers took over the electric power station and barricaded it, preparing to resist troops.

The cabinet session was reportedly particularly worried by the dangerous situation in the Loire Valley mines, where gas and water seepage threaten the pitheads.

Grove City May Tax Cameramen

GROVE CITY, Oct. 20.—In an effort to protect established photographers in Grove City, solons have been asked to set a fee for those already in business in the borough to be paid annually and for transient photographers to be charged the same fee for each day they are in the borough.

Most cities in the district charge visiting photographers who generally do work for much lower prices. Council promised a borough photographer to study the plan. The solons also are asking bids to survey the borough water system.

Porch On Walnut Street Damaged By Auto Tuesday

Porch of the Stefano home, 211 South Walnut street, was damaged considerably at 12:30 p.m. Tuesday when struck by an auto operated by Myrtle M. Campbell, 721 Court street.

According to a report made by Policemen Tewell and Davis, she was driving east on Court street, and a Schwebel Baking company truck of Youngstown was being operated west on South Walnut street.

In order to avoid a collision, she swerved her car and it struck the porch.

She sustained lacerations of her right leg and right elbow, and bruises to her head.

Fund For Jones Family Swells

Ask President To Correct Sentence Of Nazi Ise Koch

WASHINGTON, Oct. 20.—(INS)—Senate investigating chairman Ferguson (R) Mich., today asked President Truman to "correct" the sentence of Nazi Ise Koch, which a military government review board cut from life to four years. Ferguson announced that the administration's request his committee will tell President Truman all it has found out about the clemency grant to the woman who reportedly made lampshades from skins of victims of the Nazi's Buchenwald death chambers.

The senator said he had granted the army's request that a copy of the committee's secret testimony be turned over to the White House. He added: "The president undoubtedly is in a position to correct any injustice in the reduction of this woman's sentence if he so desires."

"I am pleased that the president now is interested in this case and want to assure him the complete cooperation of the committee."

Ferguson demanded that the army or the president act aside the review board's clemency order and allow the trial court's life sentence to stand.

Frau Koch is the widow of a one-time commandant of Buchenwald. She was found guilty of taking part in the operation of the dread Buchenwald prison, where thousands of Jews were killed.

C. E. Convention To Be October 21

"Serve Christ Now" is the theme chosen for the fall convention of the officers and members of the societies of the Lawrence County Christian Endeavor union to be held October 21 in the Central Presbyterian church. Registration will begin at 7:45 p.m. Rev. Thomas Redick of Beaver county will lead a conference for high school members on the topic, "The C. E. Pledge in Our Personal Lives." Rev. Howard Redmond will conduct a similar conference on the same subject for senior members and county officers. These conferences will begin at eight p.m.

At nine o'clock p.m. Merrill Rose of Mercer county will present the Keystone Crusade. The remainder of the evening will be under the direction of the recreational and social department, with Ruth Graham of Ellwood City as game leader. Refreshments will be served, after which Rev. Redmond will conduct a brief worship service.

WORKMAN INJURED

J. J. McCormick, of R. D. 1, employed by the Johnson-Drake and Piper company, suffered a fracture of the big toe of his left foot, while at work, late Tuesday morning. He was injured when he dropped a heavy block on his foot. He was treated at the Jameson Memorial hospital.

THE FAMILY SCRAPBOOK

By Ernest G. Osborne

WHY NOT TRY THIS?

Learning Through Touch

We often forget that much learning comes through touch sensations. The nature of all kinds of things is made more clear through our fingers. Little children, especially, enjoy this sort of learning. They find that some pieces of cloth are smooth and silky, others are rough, that a stove is hot and a piece of ice cold, that knives are sharp and flypaper very sticky.

One of the most important ways of touching for the young child is through his lips. The sensitive nerves of the lips tell the child a great deal concerning the world about him.

We parents usually are afraid the child will be hurt by hot, sharp or rough things and warn him or prohibit him from touching them. But our words are far less meaningful than a little firsthand experience would be. Naturally, we must use discretion. We wouldn't allow him to touch a red-hot stove or a razor-edged knife. But he can learn about heat and sharpness without going to extremes.

In addition to the day-by-day experiences in touching, one can supply a simple set of materials that the child can enjoy touching—a piece of velvet, a bit of sandpaper, cellophane—all sorts of things that give different touch sensations. The youngest children will enjoy this very much.

Beaver Falls To Protest Plans To Construct Canal

BEAVER FALLS, Pa., Oct. 20.—Beaver Falls city council Monday night made plans to attend a hearing on the proposed Lake Erie and Ohio river ship canal in Pittsburgh on November 17-19 to protest construction of the canal.

The action was taken after Solicitor E. Y. Calvin reported he had been advised by Colonel W. S. Moore of the board of engineers, rivers and harbors, Washington, D. C., that property damages arising from building the canal would have to be paid by the municipalities.

Engineers employed by the city, it was said, have estimated that necessary changes to the city's sewage lines and treatment plant in the event the canal is constructed would cost nearly \$400,000.

The Beaver Falls Municipal Authority, which supplies water to Beaver Falls, New Brighton, Rochester and many other Beaver Valley communities and has its pumping stations along the Beaver river has previously registered opposition to the proposed canal.

Lions Club Told About Wage Tax

Assistant City Solicitor Robert E. Jamison Addresses Club Tuesday

TELLS OF CITY'S NEED FOR MONEY

New Castle Lions Club members were addressed by City Solicitor Robert E. Jamison, at their noon luncheon meeting in The Castleton, Tuesday noon, when the proposed wage tax, which the City of New Castle proposes to levy, was explained.

Mr. Jamison cited the need of the city for additional money with which to run the government, and stated that the only tax measures available to them were on things which the state does not levy a tax.

Explained Setup He explained the setup as it is proposed to be enacted here, and stated that the law permitting the levy of a wage tax has been found to be constitutional. He also stated that it has been found to be popular in places where it is now in force after the people have gotten used to it.

He further stated that he felt that people would show a greater interest in their local government if everyone had to pay a tax, as they would be more interested in where their money goes.

His talk provoked considerable interest among the club members and a number of pertinent questions were asked in regard to various phases of the matter.

A. Lewis Conn, chief clerk of the county registration bureau, was accepted as a new member of the club.

Plans for a Halloween party, which will be held in the Willard Grange hall on Wednesday evening, October 27, were outlined. Dr. Thomas Fletcher is chairman of the committee on arrangements.

Question No. 7

WHO ALLOCATES AND DISTRIBUTES THE FUND TO THE AGENCIES?

"Many of us can recall the time when we were solicited almost every week in the year by one welfare or charitable organization or another," Paul G. Dingley, President of the Community Chest, said today. "Most of them were worthy and deserving of financial support. However, the need for cooperative solicitation of funds for character-building, welfare and charities was recognized in this county as long ago as 1887, when the first organization for such a purpose was founded in Denver, Colorado. But this idea did not really take root and begin to grow until nearly half a century later. By 1932, a national organization was formed to awaken the public to the requirements of America's social welfare program.

Today more than a thousand cities and towns conduct annual Community Chest campaigns under the banner of the Red Feather. Through its unifying influence, we are becoming not merely a nation of united states, but also a nation of united people.

In the New Castle area the Community Chest board comprises a representative cross section of our citizenry, with representatives of labor, management, social workers, and professional people taking an active part in its administration. Various committees of the board give unstintingly of their time to a study of community problems, agency services, finances and human needs in determining the allocation to be made to each agency. The budgets of each Red Feather service is carefully reviewed, to prevent duplication of service, and

to make sure that services offered by the agencies are not only necessary to community well-being, but also that it is an attainable program with adequate personnel facilities.

The board passes on the recommendations of the budget committee, and, based on the allocations, the total goal of \$100,000 is set. The Community Chest not only acts as the medium to raise the necessary funds, but also distributes the funds on a monthly basis to each of the thirteen Red Feather service. In the performance of these things the Chest greatly reduces the overhead costs and saves time and effort in raising the yearly joint fund in a single financing campaign. It has proved the most successful and economical plan ever devised for raising funds for necessary humanitarian work.

New Indictment Against Meyers On Income Tax Charge

BALTIMORE, Oct. 20.—(INS)—A Federal grand jury on Tuesday returned a new income tax indictment against former Maj. Gen. Bennett E. Meyers, now serving a jail sentence for subornation of perjury.

The wartime deputy chief of air force procurement was indicted on charges of evading income taxes totaling \$45,731 for the years 1942 to 1946.

Meyers currently is serving a 20-month to five-year sentence in the Washington, D. C., jail for inducing a witness to lie during a congressional probe of his wartime procurement activities.

Today's indictment was the second returned in Baltimore against the ex-officer. He was indicted last March on charges of evading income taxes for 1941, but the case has not yet been tried.

Perjury charges also are pending against Meyers, who was stripped of his rank and Army pension.

PRR Trains Not All Streamliners

WAYNESBURG, Pa., Oct. 20.—(INS)—Not all of the Pennsylvania Railroad's trains are sleek streamliners or powerful steamdriven giants.

The company still operates the old Waynesburg and Washington narrow gauge which snakes through the hills of Greene county, and which once boasted four passenger trains and two freight trains daily.

Now the 28 mile line runs only one gasoline coach milk train twice weekly, which is sufficient to hold the railroad's franchise.

But natives think the company still has a good thing in the dinky line, and many predict it will bloom again.

Their prediction is based upon the fact that the line runs over some of the richest coal deposits in the country.

One of these days, they say down Waynesburg way, they'll be getting that coal out, and then watch old Waynesburg and Washington's smoke.

To the rheumatic patient, suffering and crippled, it is disconcerting to realize that the tuberculosis patient receives 5,000 times as much attention—insofar as care and research is concerned.

Navy Needs Fifty Women As Officers

WASHINGTON, Oct. 20.—(INS)—The navy said today that it needs approximately 50 more women officers for the regular navy. About 30 of the vacancies are for line officers, 20 for dietitians and two for physical therapists. The vacancies all carry the rank of ensign.

The navy said that applications for the line appointments will be accepted until October 30 and for the medical corps 'until further notice'.

All candidates must be single, between the ages of 21 and 25, and college graduates. All except the line officers must have completed an internship or course of training completed by the surgeon general.

Successful candidates will be among the nearly 300 women who are slated to become the first women officers in the regular navy.

Bobby Soxers Like Long Hair Music

PITTSBURGH, Oct. 20.—(INS)—The Bobby Sox brigade demonstrated in Pittsburgh that they go

for the long hair music as well as boogie woogie.

When a 1,000 cut rate season tickets for the Pittsburgh symphony went on sale recently, more than 100 college and high school students, waited in line all night.

Claire Booher and David Lazear, 17-year-old high school stu-

dents, headed the line which started to form at 6:30 p. m. The evening before the tickets were to go on sale.

They waited until 9 a. m. the

next morning when the ticket booth opened.

The kids brought radios, lunch boxes and playing cards for their all-night vigil in the cold.

GIFTS FOR EUROPE'S CHILDREN

FRANCE'S "SHIRLEY TEMPLE," 10-year-old Lucie Valnor, has been looking over some of the hundreds of mailbags of gifts from American children that she will help distribute to French children at Christmas. The Church World Service committee for world friendship among children has been collecting half a million gifts for distribution in 15 European and Asiatic countries. (International)

IN THE OPEN

I pulled the blankets up under my chin and drifted off into that delicious half-sleep which precedes the restful night. From the depths of a sleeping bag close by came the strangled rumble of professional snoring which threatened to shake down the rafters on each intake and subsided in a sort of hissing scream. A few struggling flames still flickered in the fireplace as midnight passed and a new notch moved up on the calendar of days.

There was restlessness in the bunk in the opposite corner of the log cabin and finally I was aware of a voice stating, "I believe I see some foxfire down there by the creek."

Only One Thing To Do
There's only one thing to do at the mention of fox-fire and that's to go find it. I pulled on a sweat shirt over my pajama coat and fumbled around in the dark for

socks and knee boots. A slouch hat completed this weird ensemble and I groped my way out into the chill October night.

Sure enough, off there in the bottom toward the creek shimmered a pale column of uncanny phosphorescence. It seemed to weave and bob about in the light breeze and it certainly looked like fox-fire which sometimes glows at night in punky, decaying stumps and snags.

Flood lights were burning farther up the hill, lighting up a portion of the camping area, but I could not locate any reflected beams which might be fooling us off there in the creek bottom.

Set Our Course
We set a course directly on that awesome glow and plunged into the briars standing guard along the way. Those flimsy pajamas were all that stood between me and the briery facts of life. I don't recommend this costume for routine outdoor pursuits, particularly when there's a barbed wire fence to be negotiated.

The berry tangles by the roadside made sure that we started from scratch. We finally cleared all obstacles and landed in the roadway below the cabin, to find that our "fox-fire" was a reflection from the floodlights via the metal trim on a park car. The shining leaves in a tall sapling by the road had caught and reflected the eerie light, giving it an effect of depth and distance and ghostly motion.

Odd Glowing
I have seen the odd glowing of the big saffron mushroom known as the Jack-o'-Lantern, and have fished quiet eddies at night while the glow worms shimmered against the far bank. I hope some night to see the odd floating Will-o'-the-wisp above an orchard bog. But I don't ever want to chase fake fox-fire against through the briery tangles at midnight clad only in pajamas and knee boots.

The urge to explore new hiking grounds took me down an abandoned roadway which follows a back country brook. Part of the way was over familiar territory, but I was soon deep in "uncharted" wilderness. The odd strap-like blooms of the witch hazel hung across the path and I saw the huge paper cone of a hornet's nest hanging from an elm limb directly above the stream.

Slabs Of Limestone
Great slabs and ledges of limestone have built the foundation for this free-running brook. The black-nosed dace and shiners were running in large schools in every likely pool. I poked around the tumble-down buildings of an abandoned house, hoping for an old flask or other relic of by-gone days. The only thing I turned up was a huge black snake who was far from an antique, and who didn't like it at all when I scooped him up on my walking stick.

A state-colored junco flew out ahead, sure sign of the advancing season. I crossed a rickety wooden bridge and came unto some abandoned coal workings. Almost immediately the limpid stream changed to a sulphurous yellow mess that spelled out poison in no uncertain terms. Surely the evil that men do lives after them in these gushing streams of sulphur water which pour unchecked from long abandoned workings.

Gnarled Old Cedar
A gnarled old cedar in a clearing betrayed the site of an earlier home. I explored and came upon a stone-lined cellar hole housing quite a pool of water. At least a dozen frogs dove to safety as I looked over the edge, and two old patriarchy held their ground, sitting tight on their sun-warmed rocks to stare me down.

Some hours and several miles later I picked up a "mush-a-room" hunter plodding along a country lane. He had a cloth bag and a chip basket jammed full of the little gilled fellows that grow about old stumps.

SASSY FRASS.

Christopher Colles, Irish engineer, came to the United States before the Revolution and delivered lectures in New York on pneumatics, gunnery and inland navigation. One of the first steam engines made in America was designed by him.

Hickory Firemen Carrying On Drills

Preparation For Future Emergencies Being Made By Township Department

Members of the Hickory township fire department are carrying on a series of night drills in the operation of their fire equipment, and getting instruction on how to combat various kinds of fires, in

order to be ready for any future emergency along this line. The drills are being carried out under the direction of Fire Chief Tom West, and assistant chief, Theodore Warnock.

In addition, a survey is being made of the township, showing where the various sources of water are located. This will be kept on file in the fire station, and when a call is received, firemen in responding to that particular section of the township, will know exactly how much water is available and where it can be secured.

Dr. H. J. Stewart And Family To Return To India

Stay Of Year In New Wilmington Is Nearing End For Missionary Workers

(Special To The News)
NEW WILMINGTON, Oct. 20.—Dr. and Mrs. Harris J. Stewart and son Robert, 13, of Gujranwala, Punjab, India, who have spent the past year here, are expecting to return to their missionary work early in November. The exact date of their sailing has not been set.

For the past 25 years, Dr. and Mrs. Stewart have been associated with the Theological Seminary at Gujranwala. Dr. Stewart teaches in the seminary while Mrs. Stewart works with the wives of students. Most of their students come from low caste people although some are converts from Hinduism and Moslems.

Gravely Concerned
Dr. and Mrs. Stewart have been watching developments in India since Aug. 15, 1947, with grave concern. It was on that date that the British granted complete freedom to India. The hatred and disunity among the people which resulted in slaughter, disaster, famine and pestilence as a result of the division of the land into Pakistan and India brought great sorrow to the Stewarts.

Trouble still brews and the Stewarts are wondering what they will find when they return. However, they have no fears in regard to their personal safety. Throughout the terrible holocaust, very few Christians lost their means of livelihood, however.

Hope For Stronger Church
The Stewarts hope that from the turmoil will come a stronger and better church in Pakistan.

Mrs. Stewart is the former Olive Brown who was born at Allison Park, Allegheny county. She is a graduate of Pittsburgh Academy and The Biblical Seminary in New York City.

Dr. Stewart was born at Dharmasala, India. He attended Westminster college and was graduated in 1904. He served as a short term in India from 1904 until 1907, returning to take seminary work at Allegheny and Princeton.

In addition to their son Robert, who has been attending local schools, they have a daughter Elizabeth, who completed her college studies last spring. During the summer she married Thomas Cummings, son of Dr. and Mrs. James Cummings, other local residents who are missionaries to India and are also on leave.

The two families have been lifelong friends and their stations in India are just 75 miles apart.

America Riding Prosperity Wave

CHICAGO, Oct. 20.—(INS)—Further proof that America is riding on a wave of post-war prosperity was offered by the Federation of Tax Administrators.

In a report issued in Chicago, the organization said state income tax collections increased 210 million dollars in the fiscal year of 1948.

Citing U.S. Bureau of Census figures, the federation said state tax collections from 1947 incomes were 4.2 per cent higher than in the previous year.

The report said that corporations paid 375 million dollars in state income taxes in 1948, an increase of 27.1 per cent over 1947. It said that individuals paid 506 million dollars, which it said was a 21.1 per cent rise over 1947.

Probably bacteria are the commonest living creatures. Some kinds live in the soil, others in the bodies of plants or animals as disease germs. Among larger living things, grasses and some insects probably furnish the largest populations.

What They Say Of Chest Drive

JAMES B. FOSTER
Realtor, Woods Building

Through the several civic institutions serviced by the Community Chest you are given the opportunity to serve and promote the welfare and growth of our city; to give aid and comfort to the aged and feeble; to provide a home for orphans, victims of circumstances beyond their control; to provide character-building facilities, recreation and guidance for our youth; to provide hospitalization for our sick and afflicted; to help the wayward regain their self-respect; to give assistance and accommodations to our service men through the United Service Organizations.

Community Chest expenses are higher. Their needs are greater. Give more. Give generously. Give now.

REV. OWEN W. SHIELDS

Pastor, Croton Methodist Church
President, Ministerial Association

Christians have a sacred obligation to support those organizations and endeavors which are the fruit of the Christian Gospel. Our community would be a much less desirable place in which to live if the thirteen Community Chest agencies were not active here. They do not exhaust the field of Christian philanthropy, but they are the tangible evidence of our concern for our burdened brothers.

The Community Chest campaign on behalf of these agencies is our united effort to work and live cooperatively. To support the campaign generously and actively help to achieve its goal is the civic responsibility of all. As president of the New Castle Ministerial Association, I appeal to all the ministers and churches of our city to wholeheartedly support this year's Community Chest campaign.

U.S. Still Sees Agreement On Austrian Treaty

State Department Spokesman Believes Big Four Agreement Will Be Reached

WASHINGTON, Oct. 20.—(INS)—A State Department spokesman said today that the United States still is acting in the belief there will be a Big Four agreement on an Austrian peace treaty despite previous failure to talk.

Michael McDermott, the spokesman, made the statement in denying a report that the United States has a plan to arm Austrian security forces.

This report came from Paris and has been attributed to John Foster Dulles, Gov. Thomas E. Dewey's adviser on foreign policy.

The report said that the Big Four powers already have agreed to treaty provisions which would permit Austria to maintain a border force, anti-aircraft forces and security police, totaling 53,000 men.

Agreement On Provision
McDermott admitted that there has been full agreement on a provision—Article 17 of the Austrian treaty draft—defining the size of the Austrian forces.

He said, however, that there has been no agreement on another provision of the treaty which would bar Austria from manufacturing, acquiring, or possessing any war material of German or non-Austrian design.

Since this would force Austria to create an armament industry of her own and the United States has refused to agree to the provision, it has been referred to the Council of Foreign Ministers along with the rest of the treaty draft.

Deaths In 1947 Total 1,445,370

WASHINGTON, Oct. 20.—(INS)—The grim reaper cut down 1,445,370 persons in the United States last year.

This was reported today by the Federal Security Administration which said the number of deaths registered was an increase of 49,753 over the total recorded in 1946. FSA said the 1947 death rate was 10.1 deaths per 1,000 population, the second lowest rate ever recorded in the U.S. The lowest was 10 in 1946.

Here it is! A long look ahead! The modern design for '49 new Hudson

Come in and see the new Hudson—the lowest-built car on the highway, with beauty, riding qualities, comfort and safety only possible because of a new "step-down" design, offered by no other automobile!

Only once in a blue moon does a car step so far ahead that it is a protected investment in motor-car value! You are invited to see just such a car—the New Hudson with "The modern design for '49"—and for years to come!

Here is truly streamlined beauty—a stunning combination of free-flowing, low-built lines that develop naturally out of a rounded floor which is the key to a basically new and exclusive design principle. The New Hudson is the only car you step down into.

The development of a "step-down" nose in an exclusive, all steel Monobloc body—Dewey's adviser on foreign policy—permits Hudson to build the lowest car on the highway—only five feet from ground to top—while maintaining more interior head room than in any mass-produced car built today!

But streamlined beauty isn't the whole story of Hudson's modern design.

Hudson has a leg-the-road way of going on every conceivable kind of highway. The way in which this car takes even the sharpest curves makes it a "stand-out" for roadability in any year!

These remarkable riding qualities are largely due to the fact that the New Hudson provides the lowest center of gravity in any American stock car—yet road clearance is ample! It is a widely recognized fact that the lower to the ground a car can be built, the more stability it will have and the safer it will be.

Such a delightful conformity to the road, coupled with the protection of riding afforded by a sturdy box-section steel frame, gives to everyone who rides in a New Hudson a grand feeling of safe well-being! This feeling is further enhanced by the ease with which this car is operated, and by the restful quiet with which Hudson glides along—thanks to the superb sound control engineered into this advanced automobile.

See "The modern design for '49" today! Come in and let us show you the many advantages of Hudson's fabulous "step-down" design principle.

SEATING AT WEDDING RECEPTION

"Please give me directions as to seating the bridal party at a wedding reception."

Answer: Place the brides table in the most conspicuous spot in the dining room. Or, it may very properly be set in a separate room adjoining the dining room, so that

the wedding party will not appear aloof to the other guests.

Let the wedding cake be a large one with many tiers and place it in the center of the table. Place the bride and groom in the middle of one side of the table with the cake within easy reach of the bride. Surround it with trailing amaranth or orange blossoms and flank it with lighted, unshaded candles (if the wedding reception takes place in the evening) and vases or bowls of flowers carrying out the color scheme of the wedding.

Seat the bride at the groom's right, the maid-of-honor at his

left; the best man at the bride's right and the bridesmaids and ushers alternately around the table.

Question: Since my husband-to-be comes from a distant state, shall I send invitations to his relatives and friends even though I know it will be impossible for them to attend the wedding?

Answer: Yes, the groom's family should receive invitations regardless of circumstances.

Present your problems to Miss Market who will promptly send personal replies to questions from readers inclosing stamped, addressed envelopes.

TAXI DATA
DETROIT—(INS)—One billion, 800 million Americans hailed cabs in 1947. The country's 73 thousand taxicabs traveled close to five billion miles to carry the fares to their destinations. The Automobile Manufacturers Association "Facts and Figures" booklet estimates the cabs had a gross revenue of \$56 million dollars.

So many MORE people now have telephones

To meet a heavy demand that continues at a steady pace, we've installed more telephones in the last three years than in any other three-year period in our history.

Party-line service has helped tremendously. "Sharing the line" has enabled us to stretch available equipment . . . new and old . . . to serve more subscribers.

Party-line service is good service, too, especially when party-line neighbors share the line considerably. Duff-Owlett

Battle Likely

Owlett May Be Candidate If
Gov. Duff Enters Race
For Senator

OTHER NEWS OF
STATE AFFAIRS

HARRISBURG, Oct. 20.—(INS)—Republican National Committee-man G. Mason Owlett might be the choice of old line Republicans to oppose Gov. James H. Duff in a 1950 primary if the chief executive should run for U. S. senator. Owlett, who is president of the Pennsylvania Association of Manufacturers, presumably would have strong financial backing of industrialists. Duff probably would meet strong opposition if this program continues to follow an independent pattern. Retailers, the State Chamber of Commerce, the Petroleum association, the soft drinks business, coal operators and others already are showing signs of displeasure over proposed taxes or levies pushed through by Duff during the 1947 session of the general assembly. Mining companies were displeased with high expenditures forced on them to halt stream pollution, Duff's major project.

The governor has said nothing about accepting or rejecting the candidacy whopped up by GOP State Chairman M. Harvey Taylor during a meeting of Young Republicans. The Senate seat of U. S. Sen. Francis J. Myers, Philadelphia, a Democrat, will expire in two years. An attempt was made after the meeting to minimize the incident.

Republicans and Democrats alike are singing the blues about the slow response to fund raising campaigns. With two weeks to go until the November 2 general election, neither major party is near its financial goal. Disinterest isn't laid to the high cost of everything so much as to prevailing confidence that Republican Gov. Thomas E. Dewey will move into the presidency, probably in a ballot landslide.

Duff indicated he will try to line up support within the party from the ranks of Young Republicans. Their interest in his administrative policies and political tenets

was voiced during the "junior party's" executive meeting where the governor's possible political future was discussed. The governor discussed the current situation in terms of "revolution" and emphasized that "revolutions" were waged by young men and women. He made reference to his own youthful entry into politics. He expressed belief that decisions henceforth must be made on the basis of an "opportunity" for the next generation rather than on experience gleaned from the past. His speech was earmarked for youth appeal. Frank C. Hilton, of Womelsdorf, chairman of the group, is a close ally of the governor. He made it clear Duff could rely on him to whip up support among the Young Republicans for his administrative activities.

Nation's School Children Hindered By Faulty Lighting

Poor Lighting, Color Schemes in
Class Listed Reasons For
Learning Inability

PITTSBURGH, Oct. 20.—(INS)—Two-thirds of the nation's school children are being hindered in their studies because of faulty and improper lighting and color schemes in class rooms.

That is the diagnosis of Dr. Dorell B. Harmon, psychol-physiologist of Austin, Tex. Dr. Harmon told the Middle Atlantic Educational Congress in Pittsburgh the problem of school vision extends far beyond merely seeing well.

"Children do not see to see—they see to act," he explained. "Therefore, seeing involves complex inter-relationships that exist between the eye and the entire body."

He said that for this reason dark corners in classrooms, glare on desks and other eye-straining properties of classrooms affect a child's sight ability and therefore his ability to learn. He backed his statement with results of tests he made with some 100,000 Texas school children.

Dr. Harmon also endorsed a new reading instruction method developed by the Temple University Reading Clinic. It calls for an analysis of a student's work and assignment of work in regard to his ability to learn rather than on the regular grade level.

More than 500 optometrists attending the meeting viewed demonstrations of various new optical devices for use in detecting visual defects in children and in correcting the defects.

Elissa Landi In Critical Condition

KINGSTON, N. Y., Oct. 20.—(INS)—Actress-novelist Elissa Landi was reported in "very critical" condition today by physicians at Kingston hospital.

The 44-year-old Italian born actress has been under treatment the last nine days for what her physician, Dr. Kenneth LeFever, described as a "chronic condition".

A hospital bulletin issued early today reported Miss Landi was "steadily declining and her condition is very critical".

Last Steps Taken
Towards ElectionProclamation Ready For
Publishing—Election Kits
To Be PreparedOTHER EVENTS
IN COURT HOUSE

One of the last steps before the actual election on November 2, has been taken by the county commissioners.

The election proclamation, necessary under the law has been prepared for publication and will appear in a day or so. The only other detail remaining now is the preparation of the election kits, one for each of the ninety nine precincts.

No local officers will be elected this year, only state and national. In Lawrence county, voters will cast their ballots for a president, vice president, congressman, state senator, assemblyman in each of the two districts, state treasurer and state auditor-general.

VERDICT FOR PLAINTIFF

In the case of the Rocky Mount Lumber Company against Stitzinger Brothers, a verdict has been returned for the plaintiff. The jury hearing the case awarded the plaintiff \$180 on a claim of \$580.

The case was one in which the defendant ordered a car load of lumber. When it arrived, they claimed it was not the size they could use, and refused it. The plaintiff later sold it to another customer. The plaintiff then made claim for \$580.

DIVORCE REFUSED

Judge John G. Lamore has refused a divorce to Cecile V. Moser from Clyde C. Moser. The judge said the charge of indignities to person had not been proven.

Blame Comic Books
For Holdup Slaying
By Pittsburgh Boy

PITTSBURGH, Oct. 20.—(INS)—Comics and radio crime stories were blamed today for setting 16-year-old Joseph Manuel on a course of crime which ended with the holdup slaying of a Pittsburgh salesman.

The youth pleaded guilty Tuesday to eight charges of armed robbery and one of larceny. His attorney, Earle R. Jackson, said Manuel would plead guilty to a charge of murder today.

The boy's father, Samuel Manuel, a barber, told the court that his son "read comic books and listened to gangster stories on the radio all the time he was home."

He added that after his son suffered an attack of rheumatic fever in 1943 that doctors told him that Joseph's body grew up but his mind didn't.

Young Manuel is accused of shooting and killing Robert Lennon, 40, last July 6 when Lennon refused to drive him from the scene of an attempted holdup. Police said he is also involved in eight armed robberies.

REGISTRATION HIGH

PITTSBURGH, Oct. 20.—(INS)—An all-time high of 761,514 voters will be entitled to cast their ballots in Allegheny county come Nov. 2.

Pittsburgh and Allegheny county registration officials reported Tuesday that registrations this year broke the previous record of 740,000 set in 1940.

Of the total, 101,343 are Democrats and 91,314 are Republicans.

MANY GET DEGREES

STATE COLLEGE, Pa., Oct. 20.—(INS)—More than 2,700 men and women received degrees at the Pennsylvania State College during the past academic year. Penn State has conferred more than 37,000 degrees since the first class of 11 men was graduated in 1881.

Cartoonist Award
For Chick Young

NEW YORK, Oct. 20.—(INS)—Chick Young, creator of the comic strip "Blondie", has been named the outstanding cartoonist of the year by the Banishes.

He will receive a silver "lady" statuette, which is to comic artists what the Oscar is to movie performers, at a Banish luncheon to be held in New York Nov. 4.

Arthur "Bugs" Baer, chief Banish, will be master of ceremonies at the affair.

The Banishes announced today that approximately a thousand editors, writers, publishers and noted personalities will attend the luncheon to honor Young.

Young, who lives in California, will fly in for the ceremonies.

Among the guests expected are James A. Farley, Dean Carl Ackerman of Columbia university school of journalism, George Jean Nathan and John Golden.

The statuette, designed by Willy Pogany, was presented last year for the first time to Walt Disney.

Striking Teachers
Return To Classes

HARRISBURG, Oct. 20.—(INS)—Hugh Henderson, state adviser of school business, will visit the Blythe township district today to check its application for emergency operating funds to assure operation under an emergency plan to guarantee wages for teachers unpaid since March.

The strike-troubled Schuylkill county school district sought aid from the commonwealth's fund for financially distressed school districts to keep classrooms open.

Striking teachers returned to classrooms yesterday after Superintendent J. V. Nash gave the commonwealth's guarantee of salaries until January 1. State Superintendent of Public Instruction Francis B. Haas emphasized the guarantee was conditioned on "proof of need."

There seemed little doubt that the condition would be met, Nash indicated, because the district's outstanding taxes amounted to \$64,000.

GET FINE CONTRACT

PITTSBURGH, Oct. 20.—(INS)—The American Bridge Co., subsidiary of U. S. Steel Corp., today has a contract to furnish and erect the steel for the 40-story secretariat building of the United Nations in New York City.

The firm will begin work next spring on the structure which will be the first unit in the permanent home of the United Nations to go up.

An all-time high record was established at Southampton, England, in 1947, says British Railways, when 557,000 passengers were handled, an increase of 51 per cent over the previous year.

Seventh Ward Missionary Groups Plan Joint Meeting

Miss Sara McKee To Address Societies And Show Pictures Of Countries Visited

At Mahoningtown Presbyterian church, members of the M.E.G. Auxiliary and Opportunity Circle, will have a joint meeting in the church, on Thursday evening, at eight o'clock.

Miss Sara McKee of the Second U. P. church, secretary of the Foreign Mission Board, who recently returned from visits to Egypt, Sudan, and Palestine, will show pictures of those countries, and tell of her experiences there. All ladies of the church are welcome, including girls of the McClurg Bible class.

Mrs. Wade Daugherty requests that used clothing for the duffel bag, and used stockings for Southern Mission School, be turned in at this meeting.

Immaculate Sodality Girls Call Meeting

It was announced this morning that a special meeting has been called for the Immaculate Conception Sodality members for this evening at 7 o'clock, in St. Lucy's church.

Perfect Flossie Mastone will have charge, and plans will be discussed for a Halloween party in the near future.

Members, Friends At Home-Coming Sunday

Mrs. Margaret Baxter Crowe and son Joel, Christopher, III, Mr. and Mrs. S. A. Eakin, Portersville; Edwin Good and Benjamin Roman, New Wilmington; Mrs. R. A. Franklin, Cleveland; Mrs. Ella

McCaig, of Edenburg; A. R. Clark, Niles, Ohio; Mrs. Mary Clara Thomas, Warren, O.; J. F. Edmunds, Pittsburgh; Mr. and Mrs. John McFate and son Bruce, Mercer; Mrs. Joseph Pettit, Pittsburgh; Mrs. Ruth Taylor and son, Mr. and Mrs. Roger Walters, Newton Falls, O.; Mrs. William T. Novan, Niles, O.; Mr. and Mrs. Wayne Bevan and children Joe, Wayne and Karen, Spokane, Wash.; former members and friends of Madison Avenue Christian church, attended the "Home-Coming" services on Sunday, October 17, at the church.

Group Opposes Sale Of Recreation Plot

Members of the Seventh Ward Civic club assembled on Tuesday about noon, for their regular meeting, at Hyde's Drug store, Manning Weller presiding.

The main item on the agenda was consideration of the proposed sale of the present city recreation plot located at Robert and South Lafayette streets, by the county commissioners to the Lawrence County Cooperative.

The Civic club strongly believes that if the ground is to be sold, it should be sold to the city and school district, who have been trying to buy it for two years. It was decided by the Civic club, to carry a protest to the sale, before the Court, this morning.

Community Chest Campaign Going Well

Mrs. G. G. Horehler, chairlady of the Community Chest campaign in the ward, reports that the response by folks of the district to the solicitors, have been very good. It is hoped that the canvas will be completed this week. Mrs. Horehler's co-workers are Mrs. Paul Bender, Mrs. Loyal Fulton, Mrs. Theo Roman, and Mrs. William M. King.

SEVENTH WARD NOTES
 Mrs. J. D. Gilmore, of West Cherry street, has received word of the birth of a daughter, to her son and daughter-in-law, Mr. and Mrs. James Gilmore of Connecticut Lake.

Mrs. Charles Toech and sons Elfred and Ronny, of Rochester, Pa., are visiting with Mr. and Mrs. Albert Flacco, of 102 South Lafayette street.

Mrs. Edith Condon of Punxsutawney, is visiting with her daughter, Mrs. Grace Helm, of 104 South Lafayette street, for about a week.

Mr. and Mrs. Chris Antoline and daughter, Lorraine, of Monaca, were week end visitors with Mr. and Mrs. Dan Rainey, of Darlington avenue.

Miss Shirley Wigley, of R. D. 7, Mahoningtown, underwent an operation for appendicitis on Tuesday morning, at New Castle Hospital, and is getting along as well as can be expected.

In the heating room of Mahoning School, the three new boilers are in operation, and doing a nice job. The asphalt adjoining the heating room is almost complete. Fire Chief Herman F. Steinbrink was on a tour of inspection Tuesday afternoon, and said things looked in good shape, and expressed the hope that the construction pertaining to the boiler room and asphalt would soon be completed, so that all the school fire-escapes could be used.

Mrs. George Kutz, of West Madison avenue, and Mrs. Ralph M. Scowden, of East Clayton street, have returned from Chicago, having accompanied the latter's mother, Mrs. Charles E. Dungan, of East Clayton street, who has left for Glendale, Calif., to visit during the winter, with her daughter, Mrs. E. F. Rhodes.

Mrs. Evelyn Perrotta, chairlady of 1887 Club Halloween party, announced there will be a meeting for all the committees, on Thursday evening, at seven o'clock, in St. Margaret's hall, when final arrangements will be made for the party, on Thursday evening, October 28.

To prevent rats from invading buildings, foundations should be sunk three feet into the ground; or, if such a deep foundation is impracticable, a ledge extending outward eight inches at base of foundation will stop rats from digging under.

Highland Societies Observe Study Day

Missionary Cabinet Sponsors Program Tuesday In North Hill Church

Inspirational was the program given in Highland U. P. church Tuesday, when Mission Study Day was observed under the auspices of the missionary cabinet. Excellent were the book reviews presented by Mrs. Clinton Kennedy and Mrs. Harold Sampson. Mrs. R. E. McGeorge, president of the cabinet, presided at both sessions, while Mrs. S. Glenn McCracken served as accompanist.

In the morning during Mrs. Kennedy's review of "On Our Own Doorstep," by Frank S. Meade, she spoke of home missions in our possessions of Hawaii, Alaska, the Virgin Islands, Porto Rico and the Panama Canal Zone. What the traders, the Army and Navy have done was compared with the work accomplished by missionaries. The book closes with a series of questions about what we are going to do concerning our possessions in the future.

Mrs. Sampson reviewed "Tomorrow Is Here" by Kenneth Scott Latourette and W. Richey Hogg. At the afternoon session, this book deals with the international missionary council which met during the Whitby conference in Ontario, Canada. Delegates were present from various countries and included some who had been confined to concentration camps. The speaker traced Christianity through the ages. A missionary has certain problems that must be met if he is to do his work effectively.

Devotions were conducted in the morning by Mrs. Henry Brennehan, while Mrs. Clark McClelland sang "Count Your Blessings" as a solo. Mrs. F. J. Fox led the worship period in the afternoon, when Miss Lucile Paisley offered "The Twenty-Third Psalm" as a solo.

Mrs. James Cole read a letter from the missionary, supported by the women of Beaver Valley Presbytery, Miss Jeanette McCrory, in which she told of the conditions in Egypt. Mrs. Samuel Staats told of Mrs. Edward Ralph having her baggage stolen while en route to this country. Mrs. Ralph, a former resident of New Castle, has been serving as a missionary in India. Mrs. Irvine Ralph, sister-in-law of the missionary, also spoke briefly.

At the meeting's close the group contributed money which will be given to Mrs. Ralph upon her arrival in this city, where she will be the thank offering speaker at the Jean Hill Williamson Missionary society meeting November 1. Luncheon, planned by the social committee chairmen of the various societies, was enjoyed at the noon hour. Colorful autumn flowers decorated the assembly room of the church.

REPORT MAN WOUNDED
 Policemen Sigler and Bush sought a man with a slashed throat at 7:15 p. m. Tuesday in South Jefferson street, near Scioto, but failed to find the wounded man.

They received a report from the Scioto street fire house there had been a fight in that district and a colored man had his throat slashed.

Woman On Trial For Shooting Of Police Captain

Newark, N. J., Jury Hearing Evidence in Sensational Murder Case

NEWARK, N. J., Oct. 20.—(INS)—Red-haired Mrs. Anna Seamon Powers 39, was accused on Tuesday of shooting to death Newark Police Capt. Thomas (Tim) Rowe "in the heat of passion because she was a woman scorned."

This was charged in his opening address by assistant prosecutor Richard J. Congleton at the second degree murder trial of the comely waitress in Essex county court, Newark.

While Mrs. Powers gazed fixedly at the floor, immobile except for the nervous twitching of her lips, Congleton told Judge Joseph Conlon and a jury of 12 men and two women:

"Capt. Rowe, who was 38, had been a happily married man for 30 years, with a grown and married daughter, until he met the defendant last January. They went together steadily for four months."

"The state contends that shortly before the killing last May 21 Rowe told Mrs. Powers that he was going to break off with her, that he had promised his family he would and that he planned to make the final break within a week."

"Mrs. Powers resented this. There was an argument, and in the heat of passion she killed him because she was a woman scorned."

Conceding that the state had no evidence of premeditated murder, Congleton said he would therefore ask for a second degree finding, which carries a penalty of from 20 to 30 years.

Denies Shooting
Frank Metro, defense attorney, in his opening address stated: "Capt. Rowe was in love with her. He told her he couldn't do without her. The gun went off by itself—or he shot it."

The courtroom was jammed to the overflowing as the case promised to become one of the most spectacular in Jersey in many years.

"The door slammed," Congleton told the jury, and an argument broke out. Rowe placed his 32-caliber revolver on his desk and seated himself across from Mrs. Powers.

"She picked up a plastic elephant and threw it. The elephant sailed through the open window and landed outside."

"Then she grabbed the gun and shot the captain," a detective rushed in. As he did so, Mrs. Powers came charging out, shouting, "I did it. I did it."

"Rowe was standing, supporting himself with one hand on his desk. He moaned: 'She got me.' Then he slumped to the floor. He never regained consciousness."

There were no powder burns on Rowe's body, Congleton said. The bullet entered the captain's stomach and took an upward course.

Both Congleton and Metro agreed in their addresses that a protracted drinking bout, including visits to a half dozen taverns preceded the shooting in Rowe's private office at the first precinct police station.

Chewing gum was introduced to the U. S. in about 1853.

LADINO CLOVER PASTURES NEED GOOD MANAGEMENT

Management and fertilization affect holding a satisfactory stand of Ladino clover in mixtures of clover and grasses. If the clover goes out the nitrogen supply will be inadequate to keep the grass productive and palatable, unless it receives liberal annual applications of manure or nitrogen fertilizer, and most of the value of the pasture will be lost.

The grass sown with Ladino is important. Timothy and brome usually do not make enough vigorous growth in July and August to keep up with the clover and may be completely smothered out. Ladino without grass winterkills badly, and is much less productive, is not so palatable to cattle as a mixture, and may cause bloat and digestive disorders.

Orchard grass, on well-drained locations, is the most vigorous and productive partner of Ladino, but if sown too thickly will soon crowd out the Ladino. Five pounds per acre is a maximum seeding of orchard grass in such mixtures, and some use only three or four pounds.

The clover should be allowed to make a good top growth before cold weather. Grazing after October 1 may result in severe winter losses.

Ladino clover needs an ample supply of phosphate and potash. Annual applications of 300 to 400 pounds per acre of 0-12-12, 0-20-20, 0-14-7, or 0-30-10 seems advisable. Early fall applications may help bring the clover through the winter.

Manure, preferably supplemented with phosphate, applied in the fall will increase production and may provide some winter protection. The nitrogen in the manure, however, will stimulate the grass more than the clover and may result in more severe competition. The same result is true of the complete fertilizer.

It is best to favor the Ladino clover as much as possible. The orchard grass will be amply able to take care of itself.

Rotarians Hear Economics Talk

Attorney Brockway, Of Sharon, Speaks At New Wilmington; News Of Town

(Special To The News)
NEW WILMINGTON, Oct. 20.—

Atty. Chauncey Brockway of Sharon, who has gained a wide reputation for his advocacy of economic changes within the capitalist system to combat radicalism, was the speaker at Monday night's meeting of the Rotary club.

"Race Problems" was the subject of a talk by Henry W. Calvert of the Westminster college faculty at the Monday meeting of the Kiwanis club.

Mr. Calvert, formerly of Duke University, told of the southerner's point of view. He stated that many nationality groups are segregated in northern states.

Griffith Williams and Clyde Lamb, delegates to the state convention now in session at Reading, Pa., will make their report at next week's meeting.

Miss Ray Huffman, R. N., on furlough from missionary service in the Sudan, will speak in the U. P. church at 8 p. m. Friday. A reception in her honor will be held afterward.

Dr. Mary Purdy, head of the English department at Westminster college, who spent the past year in England, will be the speaker at the regular meeting of the American Association of University Women Thursday evening at college hall.

Mrs. Elmer Beecher Russell discussed "Christian Education in the Schools" at Monday night's meeting of the Louise Scott Missionary society in the U. P. church parlors.

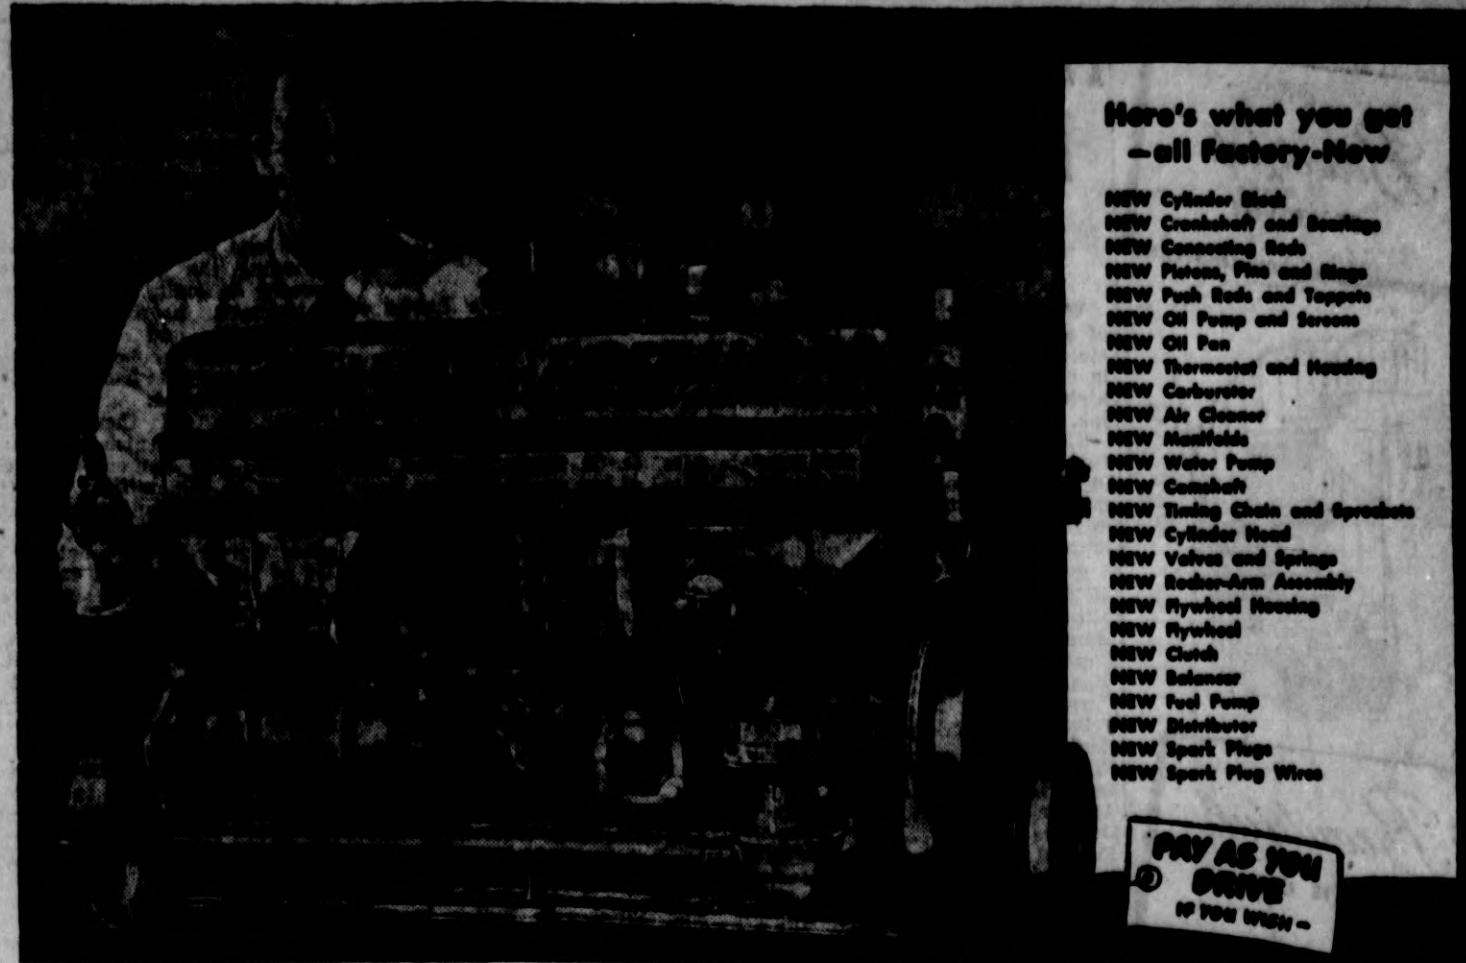

The committee in charge of arrangements was composed of Miss Florence Thompson, Mrs. W. H. Harper McKnight, Miss Katharine Foulke, Mrs. H. G. Coulter, Mrs. E. H. Freeman and Dr. Mary Purdy.

Bikini's Natives Are Moving Again

Hapless Fugitives From Atomic Bomb Going To Island Of Own Choosing

KWAJALEIN (Marshall Islands), Oct. 20.—(INS)—Bikini's natives are moving again for the third time in little over two years.

This time the 34 hapless fugitives from the atomic bomb got to an island of their own choosing with prospects of life as abundant as on their own atoll.

They'd still prefer Bikini, but

scientists say it's still too "hot" from atomic radiation. So they'll go to Kili, a lush island almost directly south of Kwajalein. They chose Kili by vote of the whole tribe.

The islanders' trek began when they were moved from Bikini to nearby Rongerik prior to the atomic bomb tests in 1946. But fishing was bad and the soil was so poor they could not scratch out a living.

Temporarily, military government brought them to Kwajalein where they lived in a compound with other Marshallese who had come there voluntarily to work for the army and navy.

Many Pedestrians Killed At Dusk

PITTSBURGH, Oct. 20.—(INS)—More pedestrians were killed at dusk than at any other time of the day.

The Pittsburgh Better Traffic committee reported that last year 57 per cent of Pittsburgh traffic accidents involved pedestrians. The committee warned that fall and winter is particularly dangerous for pedestrians when more than half the 24-hour period either is dark, foggy or rainy.

The committee warned against stepping from behind parked automobiles, crossing streets in the middle of the block or against signals, and playing in the streets.

The greatest danger is to persons under 14 years old and over 65.

ing and unwilling to make even the slightest sacrifice.

Enormous Task

No one denies that the task of subduing the guerrillas is enormously difficult. From Greece's Communist neighbors, Albania, Yugoslavia, and Bulgaria, aid comes across the border to reinforce the guerrilla bands when they are hard pressed.

But the aid these primitive countries can furnish must surely be small and elementary in comparison to the military help that the U. S. has furnished the Greek army. This includes planes and other fighting equipment. While aid of this sort might come from Soviet Russia by way of Albania, there has never been any evidence to show that the guerrillas were being given modern material in quantity. They have relied on guerrilla tactics and the ability to retreat into mountain fastnesses.

The latest Press Association reports suggest demoralization in the Greek army. An anonymous American army officer attached to the Greek forces is quoted as saying that the Greek soldier seems to feel he has nothing to fight for. A large-scale offensive is mounted and then nothing happens.

At this strategic moment, when more aid is sought, the government in Athens announces a "solution" of the George Polk murder, an announcement which should be taken with decided reservation. There may still be time for a new approach to the Greek tragedy, although it is already very late.

solution eventually will be found to the colonial problem. The Mediterranean aspirations of Soviet Russia clash head-on with the interests of Great Britain and no acceptable compromise yet has been presented.

This is in the hands of the United Nations and some sort of trusteeship probably will come out of the deliberations. The Italian government is believed seeking to impress Marshall, however, that it cannot be too long delayed lest the beneficial results of ECA are lessened by public impatience.

HUNTERS AWAIT HUNTING SEASON

More Than Million Hunters Ready For Season From November 1 To 27

PITTSBURGH, Oct. 20.—(INS)—"It won't be long now," is the most common phrase being used by more than a million hunters in Pennsylvania.

In just a few short weeks nimrods will begin tramping through woods underbrush, up hills and through creeks, in pursuit of small game.

November 1 is the day.

On that day, the 1948 hunting season will open at 9 a. m.—for most animals—with hunters going out to get their share of the rabbit crop, pheasants, grouse and quail, to name a few.

November 1 to 27 is Season

Seasons will also be opened from November 1 through and including November 27, except Sunday, for bobwhite quail, Hungarian partridge, wild turkey and squirrels, including the gray, black and fox squirrels.

The four-day, 20-a-season bag limit will retain for hunting the little brown bunnies, while two pheasants may be killed a day and not more than eight through a season—that is if the hunter is lucky.

The gray, black and fox squirrels will also be the victim of many nimrods during the season, with the hunter allowed to take home not more than six a day, or kill more than 24 throughout the season. The red squirrel can be hunted from November 1, through September 30, 1949—and there is no bag limit.

All of these small animals and birds are commonly found throughout Pennsylvania, and just as commonly desired to take home by nimrods.

The state game commission warned hunters to watch when they shoot wild turkeys. They explained that there are only 33 counties, of the state's 67 counties, in which the gobbler may be taken legally. Of the 33 open counties, 12 are restricted.

Large Game After Nov. 15

Come Nov. 15, many nimrods will turn from small to large game—the black bear being his victim. The PGC said there will be an open season for the "big brawny brute" beginning the 15th, and will close Nov. 20... five days of open season. Last year there were 569 black bear killed in Pennsylvania during a five-day open season.

And, the favorite of the large game hunter in the state, the white tailed deer, will be hunted from November 29 through and including December 11. Open season will only be on bucks with two or more points to each antler during the 11 days. There will be no open season on the "sloe-eyed doe" this year... but it's quite probable there will be in 1949.

In 1947, there were 95,043 happy hunters who killed one doe or one buck each.

New Chrysanthemum Named For Governor

HARRISBURG, Oct. 20.—(INS)—A newly developed bronze colored chrysanthemum has been named for Gov. James H. Duff.

Christened the "Governor Duff" chrysanthemum, the dollar-sized, high centered flower with a cactus-type petals close to matching wheat red is left in the chief executive's fast greying, close cropped hair.

Selects Name

Duff selected his namesake yesterday from three bouquets of unnamed varieties presented by Robert Pyle of West Grove, head of a rose growing firm. He turned down a fuchsia flower and another of iridescent pink and yellow for the bright autumn-hued blossom.

"I like a positive color like positive people," the governor said. "This is a magnificent color. It is typical of the fall."

Duff said he would like to add the "Governor Duff" chrysanthemum to his own chrysanthemum gardens at Indiantown Gap.

Believes Russia Has Eyes On Ruhr

WASHINGTON, Oct. 20.—(INS)—A senate foreign relations committee member declared today that Russia's Berlin moves are aimed at "forcing her way into operation of the Ruhr."

Sen. Smith (R) N. J., said that United States must not appease the Kremlin in any way which would allow the iron curtain to develop the vast Ruhr industrial area.

At the same time, he predicted that Russia eventually will "back down" on her demands on the basis of some "face-saving formula suggested by the United Nations."

Smith said he believes the U. S. ought to agree to "conversations on the whole German question" if Russia lifts the blockade—but the discussions should not be permitted to lead to any Russian inroads in western Germany.

Lady Nearly Choked While Lying In Bed—Due To Stomach Gas

One lady said a few days ago that she used to be afraid to go to bed at night. She was swollen with stomach gas, which always got worse when she went to bed, and the gas would rise up in her throat after she lay down and would nearly choke her. She couldn't lie flat. Had to prop herself up on pillows. Recently this lady got INNER-AID and now says gas is gone, stomach feels fine, bowels are regular and she can go to bed and sleep soundly.

INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all drug stores.

Bessemer Officer With UN Military United In Palestine

Lieutenant Inks With Military Observers Assigned To Arab Forces In Palestine

Lt. Samuel Inks, whose wife and two children reside on Main street, Bessemer, has arrived in Palestine and is now assigned to the United Nations Military Observation Unit stationed with the Arab forces in Jerusalem.

Lt. Inks was formerly commanding officer of the naval reserve electronics group at Deshon Annex. During the war, he was a communications officer with the amphibious forces in the Pacific.

On Aug. 1, Lt. Inks was called to active duty at his own request. His knowledge of the German language and communications work enabled him to get his present interesting assignment in the Middle East.

Mrs. Inks has received three letters from her husband. These were written before the recent outbreaks of hostilities. At the time, the lieutenant stated that the country was very beautiful and that he considered himself extremely fortunate to be receiving so much valuable experience in one of the most important places in the history of the world.

Fix Blame For Laboratory Death

STATE COLLEGE, Pa., Oct. 20.—(INS)—A mixture of liquid air and an undetermined inflammable substance was blamed today for the explosion which fatally injured a metallurgist at Pennsylvania State College.

Ernest J. Teichert, 38, connected with the college for 13 years, died Monday in the Bellefonte hospital 10 days after the blast in the campus laboratory where he was working on an experiment for the army.

The medical general practitioner—the family doctor—is coming back.

Camera-Carrying Rockets Take Record Size Photograph

Despite Terrible Speed Of Rockets
Photographs Are Reported
As Clear

WASHINGTON, Oct. 20.—(INS)—The navy announced that two camera-carrying rockets have taken the largest terrain photographs ever made.

The cameras were in a navy aerobee rocket, which reached an altitude of 70 miles, and a German V-2, which went up 60 miles. Although the rockets traveled at approximately 2,700 miles an hour the photographs are clear. Pictures taken at peak altitude are clear enough to allow identification of mountains, rivers, highways, railroads, air fields, towns and cities and show the curvature of the earth.

The mosaic strip of photographs taken by two cameras mounted in the aerobee show a strip of terrain estimated at 1,400 miles in length, stretching from upper Wyoming deep into Mexico and 400 miles wide, for a total area of approximately 300,000 square miles.

In the V-2, a greater area was covered because the rocket was spinning slowly when it reached its peak altitude of 60 miles, thus allowing a circular sweep of individual photographs.

Distance along the horizon in the V-2 photograph is calculated at 2,700 miles. Total land area covered by the photograph was about 800,000 square miles.

The rockets were launched at the White Sands proving grounds, Las Cruces, N. Mex.

Seek To Forestall Transportation Tieup

PITTSBURGH, Oct. 20.—(INS)—Donald D. Conn, executive vice president of the Transportation Association of America, today asked congress to forestall national strikes in transportation by a system of federal regulation.

Speaking to members of the Allegheny region of the association in Pittsburgh, Conn. said:

"It is absolutely contrary to the national public welfare to permit collusion between labor unions which leads to national strikes in the common-carrier industry."

The association proposes to draft a new national transportation act to be submitted to congress in 1950.

Around Hollywood

By RUTH BRIGHAM
(International News Service Staff Correspondent)

HOLLYWOOD, Oct. 20.—Director Michael Curtiz once remarked in his hard-to-imitate way that "love, she is a delicate emotion".

If he was right—and it seems almost axiomatic that he was—one would never know it by the pictures coming out of the production hopper at Warner Brothers.

The new film offerings are treating love rather casually, not as something likely to perish if subjected to rough treatment.

Women Pursue
"In 'Happy Times' Elsa Lanchester throws herself into Danny Kaye's unwilling arms, while Patricia Neal, relentless as only a female can be, pursues Gary Cooper through the violent reels of 'The Fountainhead'."

Joan Crawford's 'Flamingo Road' love scenes with Zachary Scott are filmed partly against a backdrop of a cheap carnival company and amid dubious political deals.

It may or may not indicate a trend in which love, until now a "delicate emotion", will show an unsuspected ability to survive and flourish in rugged surroundings.

GARY UNHAPPY

Speaking of "The Fountainhead", gallant Gary Cooper is exceedingly unhappy over the roughing up he had to give the lovely Miss Neal in the picture's romantic sequences.

The tall westerner is perfectly willing to leave the rough-on-women roles to such masters as Humphrey Bogart. The lanky Montanan said:

"In all my screen career I've only had to treat two ladies roughly."

"The other time was a dozen years ago when I was making 'The General Died at Dawn' with Madeleine Carroll."

"That was even worse than what I had to do to Patricia. I had to strike Madeleine in the face. She took it mighty nicely—in more ways than one."

HOW TO LIVE

If you don't mind being told how to live, perhaps this offering from Elsa Lanchester will solve your problems.

You'd never believe from watching her ad-libbed screen antics that her life runs as smoothly as a deep-flowing stream, but such is the case. Her message to you, if you would like for yours to be likewise, is:

"Live according to a schedule and discipline yourself."

"The simplest way to run one's life is to list the chores which must be done each day of the week and do them at the same hour every day."

Miss Lanchester lives that way and needs only six hours sleep a night.

OCTOBER 27 SET

AS 'NAVY DAY'

HARRISBURG, Oct. 20.—(INS)—October 27 has been proclaimed "Navy Day" in Pennsylvania by Gov. James H. Duff.

He called on citizens to observe the day with appropriate ceremonies honoring navy veterans and focusing public attention "on the peacetime mission of the navy as an important instrument of our national security in a troubled world."

Tired, 'All-In'— Listless Feeling Brought To Halt

As Vibrant Energy Is Released
To Every Muscle, Fibre, Cell

Do you get up in the morning still tired, feel down-and-out all day? Have you checked-up on your blood strength lately? Overwork, undue worry, cold, flu or other illness often wear down the red-blood-cells.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no strength, run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula, which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juices when it is non-organically too little or scanty—thus the stomach will have little cause to get belly aches with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm, fresh, fit out before places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps build sturdy health.

Korean President Arrives In Tokyo

Along With Wife

TOKYO, Oct. 20.—(INS)—South Korea's President and Mrs. Syngman Rhee arrived in Tokyo from Seoul Tuesday for a two-day visit.

The presidential couple was met at Haneda airport personally by Gen. and Mrs. Douglas MacArthur.

and William Sebald, top U. S. diplomatic representative in Japan.

There were no representatives of any other government nor of any of Japan's Korean groups on hand to meet Dr. and Mrs. Rhee.

Along heavily guarded and closely patrolled streets, the presidential couple was driven to the American "embassy" where the Rhees will stay as the guests of the MacArthurs.

Because of agitation against the south Korean Republic among Japan's Koreans, Gen. MacArthur's headquarters had ordered unusually strong bodyguards for Dr. and Mrs. Rhee.

During periods of emotional stress, persons sensitive to certain substances are often more allergic than when there is no psychogenic upset present.

Woman Mayor-Elect Plans To Drive Racketeers From City

Mrs. Dorothy McCullough Lee
Facing Big Task At Port-
land, Oregon

BOSTON, Oct. 20. — (INS) —
Mayor-elect Mrs. Dorothy McCul-
lough Lee, of Portland, Ore., be-
lieves today there is no such thing
as sex in politics.

Mrs. Lee, at 47, is also the na-
tion's only woman commissioner
of public utilities. She is in Bos-
ton to attend the 54th annual con-
vention of the American Public
Works association.

Portland's new mayor said there
are three things in politics more
important than sex. She listed
them as "background, training,
and ability."

Her formula for success is
wrapped up in this statement:
"Make your goal good, efficient,
and effective government; cling
tenaciously to your objective, and
take one step at a time to achieve
it."

Mrs. Lee was elected mayor of
Portland on the crest of a crusade
to "clean up" the city. As mayor
she will have direct charge of the
police department in her campaign
to drive racketeers from Portland.

Mrs. Lee admitted she is faced
with a big job, she showed every
confidence that she will be able
to handle it.

Her faith is based on 20 years'
experience in public life, starting
as a state representative from
Portland two years after she ar-
rived in the city from San Fran-
cisco, Calif.

Eighteen-Year-Old Enlistments Are Falling Far Short

WASHINGTON, Oct. 20. — (INS) —
The Armed Services revealed
today that the 18-year-old en-
listment program under the Selective
Service Act is falling far short
of its goal.

In September, the Army, Navy,
Air Force and Marines were able
to enlist only 6,656 18-year-old
volunteers for 46 per cent of a
quota of 14,450.

Since July 21 the Selective
Service Act went into effect, only
57 per cent of the cumulative to-
tal of 18-year-old enlistments de-
sired has been obtained.

Army recruiting is the shortest
of requirements, with only 45 per
cent of its quota while the other
three services combined totaled
82 per cent.

Mike Jacobs Starts Search For Man Able To Fight Joe Louis

By HOWARD SIGMUND
(International News Service Staff Writer)
NEW YORK, Oct. 20.—(INS)—Mike Jacobs, by the rule of a man who has been a successful fighter, is looking for a man to fight Joe Louis, "unretired" heavyweight champion.

A trio of possibilities occupies the "favored" spot in Uncle Mike's all too short list of logical contenders. Mike Jacobs, who has been a successful fighter, is looking for a man to fight Joe Louis, "unretired" heavyweight champion.

Louis said he will give a look-see at the Baker-Chesnes fracas, and "if it looks good, I might fight the winner."

Feasibility No. 3 is Lee Savold, whose main claim to sudden fame is his comeback one round kayo over Italian heavyweight King Gino Benvenuti.

Louis favors Savold. The champ himself, oddly enough, was Savold's staunchest supporter at the conclusion in London.

"I liked the way Savold made a comeback last spring. If he keeps fighting like that, we'd have a good challenger and maybe a good shot."

What the Brown Bomber failed to consider is the fact that the 31-year-old Savold was beaten by three opponents last year prior to his "retirement" appearance against Benvenuti.

At that, Baker and Chesnes can't be considered top-notch challengers to Louis.

Baker is an in and out where Louis to Otto Tammberg last year should give an indication to his prowess.

Chesnes is the most likely candidate, but the Ohio slinger is a light-heavyweight and his recent win over Jimmy Elvins wasn't too impressive.

Needs: Money. But the chance of a challenger for Louis from a pair of contenders is secondary. The champion's dire financial situation is the prime reason for his decision to lay his crown on the line again.

And as usual the Jacobs clan and the 30th Century Club in the vision came what may. Louis said he will fight for Jacobs any place Mike suggests.

Sam De St. Louis, who will be 36 at his next birthday, has been the busiest champion in history. But age has caught up with Joe as was indicated in his last two triumphs over Jersey Joe Walcott.

Mt. Lebanon Here Friday

New Castle Going After Seventh Win, Fifth In Class AA Title Race

New Castle High "Red Hurricane" football team, unbeaten, untied, and unscored on, in six straight games, four in class AA, has a grid date with the Mt. Lebanon "Blue Devils" at 8 o'clock Friday at the stadium. This also is a double A game.

Mt. Lebanon has suffered one defeat in six starts, that to Williamsburg last Friday 13 to 0. The "Mounties" have defeated the following teams: Washington 26 to 6, Bethel 38 to 13, Carrick 21 to 12, Penn township 13 to 6, and South Hills 21 to 0, for a total of 119 points and given up 50 points.

Hold Two Victories. Last year New Castle posted the "Mounties" 26 to 0 at the Mt. Lebanon field, the only other meeting back in 1942 ended with New Castle winning 20 to 0.

The "Cane" came out of the Farrell game in good physical shape. Coach Phil Bridenbaugh can field his strongest team this week.

New Castle has but two class AA games remaining after the Mt. Lebanon game, Washington here October 29 and Alliquippa at Alliquippa on Nov. 5.

The tickets for the New Castle-Mt. Lebanon game went on sale this morning at 9 o'clock at the North street school with 10 to a person the rule.

'Cane Harriers Take Fourth Straight

Defeat Meadville And Alliquippa At Castle Hills Golf Course Tuesday

New Castle's powerful cross-country team won its fourth straight meet yesterday afternoon at Castle Hills golf course, in a tri angular contest, with Meadville and Alliquippa. New Castle had 34 points, Alliquippa grabbed second place with 43, and Meadville made 72.

Sergeant of Alliquippa won individual honors but the well-balanced 'Cane placed six men out of the eight that finished between second and ninth positions. Doone of New Castle was the second place finisher.

Mt. Lebanon Next. Friday afternoon at 3:30, the 'Cane harriers are host to Mt. Lebanon on the Castle Hills course. The Mounties are considered one of the best teams in the district and should be tough opposition for undefeated New Castle.

Following is a list of the 15 men scoring points in their order of finish: Sergeant (A), Doone (NC), Welsh (A), John (NC), Samson (NC), Klingensmith (NC), Haines (NC), Finch (NC), Morgan (NC), DeGrange (NC), Hornsake (A), Powell (A), McCrumb (NC), H. Altman (NC) and McGary (NC).

Umpires To Meet Thursday Evening

Albert "Jabby" Conti, president of the Lawrence County Umpires association has called an important meeting for 8 o'clock at the "Y" Thursday evening. The purpose of the meeting is to close all books on the 1948 season, and to discuss arrangements for the yearly banquet.

It is urged that all members of the association take part in this closing session. An election of new officers will be held shortly.

Allegheny Next. GROVE CITY, Pa., Oct. 20.—Resuming drills today after a Monday holiday, the Grove City gridders got down to the serious business of preparing to knock their most cherished rival, Allegheny, out of the unbeaten ranks here Saturday, and at the same time extend their own undefeated string to ten games. Allegheny has a clean slate in three starts, while the Grovers have two wins and a tie.

Undefeated Hickory At Union Thursday

Undefeated Hickory High Hornets invade Union Thursday night at 8 o'clock in the lid of this week's high school football schedule. The Hornets can boast of the best record of any Mercer county team, having won five games and held to a scoreless deadlock by Millersburg. Hickory was the first team to cross Brookfield's goal line last week when the Hornets triumphed 26 to 6. Hickory's strong defense has permitted only 24 points to be scored against it, and their ace ball carrier, J. Vranes, has racked up enough points, 37, to rank high in Mercer county scoring circles.

At Union, Tony Conti's leg injury has further dampened the Scotties' chances for an upset win over the favored Hornets. The ace "T" formation quarterback suffered a severe sprain in the second quarter last week at Shenango. If Conti is unable to start, Wolfbrandt will get the starting nod. Coaches James and Roussos have had only two days of contact work to prepare for Hickory, but will taper off today with a light signal drill.

Freedom At Shenango. Friday afternoon at 2 o'clock Shenango will play Freedom at Shenango field in a non-league contest. The Wildcats figure to notch their fourth win by playing the same brand of football that enabled them to defeat rival Union last week 21 to 0.

Bessemer's Cementers will lay their undefeated record on the line when they meet an improved Mercer eleven at the latter's home field Friday night at 8. Mercer won its first game of the season last week by defeating Evans City 13 to 0. Coach Willie Ciccone's boys have made 173 points in six straight wins and have permitted their opponents only 13. This is one of the greatest records in the history of Bessemer teams but Bessemer, Schaville, Parratt and company will have to continually be on guard against upsets from this point on.

Ellwood City Wolverines play host to Alliquippa under the arcs Friday night at Lincoln field in Ellwood.

Trap And Sket Shoot Tonight. There will be a trap and sket shoot tonight at the Lawrence County Sportsman range at the Harbor 7 to midnight. It was announced by President Herman Steinbrink. All shooters will be welcome.

To Red Sox. MAZIN (KIKI) GUYLER, one-time star outfielder for the Pittsburgh Pirates and a minor league manager of recent years, is a new coach for the Boston Red Sox. Guyler replaced Del Baker, former Detroit Tigers' manager and ex-Tribe coach. (International)

Now that Marcel Cerdan has the world middleweight championship the obvious question seems to be what is he going to do with it?

Flames Destroy 24 Race Horses

CHICAGO, Oct. 20.—(INS)—A groom 'is listed as missing today following a fire in which 24 race horses burned to death and their stable destroyed at Hawthorne Park track.

The missing groom was not immediately identified. Owners and track officials estimated the loss at more than \$100,000. Most of the horses lost were maidens.

Only Four Saved. Suburban Cicero firemen who fought the blaze said the fire apparently started in stored feed.

Only four of the thoroughbreds were saved when the flames mushroomed out from the center of the stable last night and leveled the building before firemen arrived on the scene.

Many of the terror-stricken animals bolted back into the blazing barn and perished after being led to safety by grooms who were aroused by Carol Harris.

Japanese Children Will Be Taught How To Play Baseball

Plan To Construct Baseball Fields Throughout Japan In Memory Of Babe Ruth

TOKYO, Oct. 20.—(INS)—The memory of Babe Ruth will be kept alive in the minds of Japanese children under a plan adopted by the Ministry of Education.

The project calls for the creation of baseball grounds for children throughout the country.

A first contribution of 219,000 yen has been made toward realization of the project by the Baseball League of Japan. This was part of the receipts obtained at games during "Babe Ruth Week" staged by the league.

Babe Ruth Grounds. Named the Babe Ruth Baseball Grounds for Children, the facilities will be used to perpetuate the late Bambino's love for children and also to popularize baseball, the ministry said.

The baseball league has promised 10 per cent of the proceeds from games played during Babe Ruth week which will be held annually. The students' baseball league and the softball baseball league have also pledged their assistance.

RACE TRACK OWNER FACES TAX TRIAL

WHEELING, W. Va., Oct. 20.—(INS)—William Lias, 52-year-old owner of the Wheeling Downs race track, will go on trial Nov. 15 on charges of evading payment of \$900,000 in income taxes.

The government claims that Lias neglected to pay that amount during the past four years.

City League Will Honor Championship Universals, Others

Baseball players from 12 teams will be guests at 8:30 p. m. tonight in the Cathedral when the City Baseball league will honor the Universals, champions of the league for the 1948 season.

A turkey dinner will be prepared and served by the Wilmadists. Men famous in the baseball world will be the principal speakers. Denny Schill, Ellwood City, will be toastmaster.

Notables To Speak. The main speakers will be: Pie Traynor, at one time, rated by some, as the greatest third baseman in the game, and ex-manager of the Pirates; Bob Chess, young Pirates hurler; Cal Hubbard, famous Geneva football star, and now an American league umpire, and Chet Smith, Pittsburgh Press Sports Editor.

Players to attend the banquet will be from teams as follows: West Pittsburg, Duce Abruzzi, Frank's Grille, Universals, South Hills, St. Margaret's, Ryantown, Eccleston club, Union Civics, Dewey A. C., Lawrence Independents and the Slovak A. C.

All of the City circuit players will be guests, sufficient money having been earned in games with the Indianapolis Clowns to pay the banquet expense. Trophies will be awarded to the championship Universals, and the second-place Lawrence Independents.

Gilbert is President of the league. Len Gilbert is president of the league.

Doak Novario, Cleveland, affiliated with the National Baseball Federation, is also expected to attend. The league played in the NBF tourney last summer.

The diners' course will consist of: fruit cup, roast turkey and stuffing, mashed potatoes, candied sweet potatoes, orange sherbet, celery, olives, carrot sticks, rolls and butter, apple pie, ice cream and coffee.

WEST PITTSBURGH CLUB TO MEET

There will be a meeting of the West Pittsburg Rod and Gun club tonight at 7:30 o'clock at the Diaz hall, it was announced by Secretary Lewis J. Papa. All members are urged to try and attend this important session.

STEELERS RELEASE FITCH

PITTSBURGH, Oct. 20.—(INS)—The Pittsburgh Steeler roster was two below the National Professional football league maximum today.

The Steelers released halfback Jack Fitch, formerly of North Carolina University Tuesday to reduce the squad to 33.

The Winchester, model 70, 30-06, Winchester make, was awarded to A. N. Magee and the camera, to Mrs. Don Mooney.

Fifty dozen doughnuts were disposed of as was gallons of coffee, according to reports of the meeting.

HERE AND THERE IN SPORTS LAND

ENON VALLEY Rod & Gun Club was formed as a non-profit organization March 6, 1947, with several purposes in mind. First, because of the relationship between the sportsmen and farmers in the district had reached an all time low, and second, fish and game had decreased alarmingly during the past several years. To improve the relationship with the farmer, who, after all, does so much for the hunter, in the way of feed and cover, a plan of posting was adopted. The posting did not follow the usual path of a strict "No Hunting, No Trespassing" idea. Instead, the signs which the club posted read: "No Hunting Without Permission of Owner".

These signs were designed to leave the farmer know who was on his land and to give him the option of refusing anyone, club member or not, the right to hunt. The signs were distributed, and in most places, put up by members of the club. At the end of last hunting season, the reports of farmers were on the whole, favorable, and the season ended in more accord than during previous years.

In the restocking program several thousand bass were released for the fishermen and several trips were made by the Game commission to stock rabbits and pheasants.

The membership for the first fiscal year was 62, and any bonafide sportsman who desires to become affiliated may do so.

The officers selected were: president, Harry Kenny; vice-president, William Danniels; secretary, Ed Heath, and treasurer, Hugh Marshall. This year the club is represented by: president, Earl Veen; vice-president, Harry Kenny; secretary, Charles Hillman, and treasurer, Hugh Marshall.

The same plan of posting is being followed and there has been a perk-up of stocking. Five thousand fish, mostly bass, were stocked last month.

Various ways were adopted to raise money to aid the club. One of the future plans is to hold a turkey shoot, toward the last of October. The Enon Valley Rod & Gun Club is affiliated with the Lawrence Council of Sportsmen, and also participated in the council's Youth program. In fact, it has a Youth program of its own.

The club meets on the first Tuesday of each month and the membership costs \$2.

Johnny Izzo, Seventh Ward middleweight, who battles Bill Bradley of Graceland road, November 3, claims the 160-pound championship of Lawrence County, by virtue of his knockout victory over Russell Baxter, who has laid away the mitts. Future may hold niches for some of the City Baseball league players in the Cathedral. Victory Song, harness horse of the year, last season, will be retired to stud at Castleton farm, Lexington, Ky., at the end of the current season. The 5-year-old son of Volomite-Evensong by Nelson Dillon, boasts a record of 1:37 3/8 on the trot. He finished second to Chestertown in the 1946 Hambletonian, captured the famed Kentucky Futurity that same year, and won five straight major Grand Circuit stakes in 1947, to clinch "Horse of the Year" honors. The four-night Standardbred horse sales at Lexington, Ky., during the Lexington Trots totaled \$840,025. One hundred and ninety-six trotters and pacers went on the block and were knocked down at an average of \$3,265 each. Top value was placed on the offspring of Billy Direct, with Volomite youngsters, a five Billy Directs averaged \$10,100 each while 17 Volomite mares went for \$9,800, each. Members of the Shenango Valley Beagle club are receiving some neat compliments for the excellent running of the AKC meet near Volant last week. West Pittsburg Rod & Gun club will meet tonight in Diaz hall, West Pittsburg, and Thursday night, at eight, J. Washington will meet with presidents of clubs in the council, at the Shenango Valley Beagle club-house, following which the council will be guests of the Beagle club members. Claude M. Patton, 714 Young street, a former foot racer and baseball player, is recovering from a heart attack, news, his many friends will be glad to hear.

PLANT PRODUCTION
HARRISBURG—(INS)— Almost 100 million forest-tree, shrub and vine planting stock are growing in six state-controlled nurseries according to Pennsylvania's secretary of waters M. F. Draemel. Draemel said that according to present inventories "the department is rapidly approaching Governor Duff's goal of raising 50 million plants annually".

KEYSTONE FIRST
PITTSBURGH—(INS)— Recent figures reveal that Pennsylvania turned out more electrical equipment during 1947 than any other state in the union. The Keystone State manufactures a large part of the generating apparatus, transformers, circuit breakers and other products necessary to furnish power to factories, homes and farms.

Japanese Are Due For Surprise

American Investments Are Out As Hope For Economic Recovery In Japan

By **HOWARD HANDLEMAN**
(U. S. Staff Correspondent)

TOKYO, Oct. 20. — Japanese politicians who look to American investments as their big hope for quick economic recovery seem due for a rude surprise.

The big American investors who were in Japan before the war are being very cautious.

General Electric, which owned 20 per cent of the sprawling Shibaura Electric company of the Mitsui monopoly, is a case in point.

The American company won't even claim its prewar stock yet because it would cost too much.

The decision to wait was made on the following factors:

During the war General Electric

and other firms with big holdings in Japan were able to claim their wartime losses as tax reductions. As wartime taxes in America were very high, the tax reductions made on the basis of the lost stock in the enemy country, were heavy.

If the stock was claimed now the American company would have to add it to its list of capital assets or an item of income, either of which is taxable in American dollars.

Still taking Shibaura as a case in point, the American company which could claim its prewar shares has found:

The plant is rundown. A great deal of investment is necessary to restore it to an efficient basis.

Like most other Japanese industries, its labor overhead is far too high because of the peculiar Japanese condition of "over-employment." The company, like most other Japanese companies, has more labor than it needs and, under the paternalistic concepts of the country, does not feel it wise to begin a widespread reduction.

Also like all other Japanese companies in the inflation, Shibaura has had lots of labor trouble. In this case, and in many others like it, the American investor has decided the wartime tax gain was more desirable than the gamble on future profits.
